Title: Threaded Drain Hole In DPF (Muffler) On Trucks With 2007 Caterpillar Emissions Engines

Applies To: All Trucks with CAT 2007 Emission Engines

DESCRIPTION

Trucks equipped with 2007 Caterpillar emission engines have a threaded hole in the DPF canister. This is a drain hole and should not have a plug, fitting or sensor installed. Do not plug this hole as water damage to the DPF can occur. This is a water drain hole and must remain open.
