Kia America, Inc.

Software Update for Parking Lamps

K5 I July 22, 2025

Important OTA Software Update

This OTA update provides the following improvements to resolve Noncompliance Recall SC341:

This important update is to remedy the Power-net Domain Controller (PDC) software logic. When the turn signal is activated while the headlamps are activated in a steady burning state or while the parking lamps are activated, the corresponding parking lamp does not illuminate in a steady burning manner. As a result, the subject vehicles do not comply with the conspicuity requirements of Federal Motor Vehicle Safety Standard (FMVSS 108) "Lamps, reflective devices and associated requirements", thereby increasing the risk of a crash.

If the OTA software update is unsuccessful, you are advised to bring your vehicle to a Kia dealer to complete Recall SC341.

1.	**Vehicle Model**	2025 K5 (produced between 02/20/2024 – 04/23/2025)
2.	**Time Required**	OTA Update (in-vehicle): 5 minutes approx. Once this software is downloaded by the vehicle, and the vehicle is powered off, a pop-up will be displayed on the infotainment screen.

Additional information: This OTA will be rolled-out to all eligible K5 vehicles with an active Kia Connect account.

If you have any questions, please contact the Kia Connect Call Center (844) 886-9411.

Reference Service Action SC341.
