

IMPORTANT SAFETY RECALL

This notice applies to your vehicle, VIN # 1HD1ALN25[redacted]

November 18, 2026
Harley-Davidson Recall No. 0194
NHTSA Recall No. 26V730

Dear Harley-Davidson® Motorcycle Owner:

This notice is sent to you in accordance with the National Traffic and Motor Vehicle Safety Act.

Harley-Davidson Motor Company, Inc. has decided that a defect which relates to motor vehicle safety exists in certain 2026 FLHX, FLHXL, FLHXSE, FLHXLSE, FLHXSTSE, FLTRX, FLTRXL, FLTRXSTSE, and FLTRXP motorcycles. We are notifying you because our records indicate that you may own one of these motorcycles.

What is the Issue?

The gear position sensor may contain plastic molding flash which can result in the engine control module (ECM) communicating the incorrect gear position of neutral when the transmission is actually in gear. This condition can allow unintended forward motion of the motorcycle, potentially increasing the risk of an injury.

What Should You Do?

Please contact your authorized Harley-Davidson motorcycle dealer and arrange an appointment to have the gear position sensor replaced. Any associated repairs will be performed at no cost to you and should take approximately 30 minutes. However, due to scheduling, the dealer may require your motorcycle for a longer period. Once the remedy has been completed, your dealer will ask you to sign a recall claim.
