	TYPE	RECALL CODE	QUESTION	ANSWER
Panoramic Sunroof Ambient Light Bar (LED Module)	Safety Recall	60D1	What vehicles are included in Safety Recall 60D1?	Certain 2018 model year Volkswagen Tiguan vehicles equipped with a panoramic sunroof with ambient lighting.
			What is the safety concern for Safety Recall 60D1?	High humidity in the panoramic sunroof ambient lighting bar LED module (caused by environment or by leaving the sunroof open) could lead to a local short circuit. If this happens, there is a risk of a fire.
			What is the repair for Safety Recall 60D1?	To correct this defect, dealers will install in-line fuses for the left and right panoramic sunroof ambient light LED modules.
			When will the repair for Safety Recall 60D1 be available?	Parts are available now and repairs have begun. Please contact your local Volkswagen Dealership to schedule an appointment. If you are not familiar with one, please click here to locate a Volkswagen Dealer near you.
			Are there any precautions I should take because my vehicle is part of Safety Recall 60D1?	Yes. A burning odor or smoke coming from the front of the sunroof frame indicates that the sunroof LED module may have short circuited. If this happens, DO NOT continue driving and DO NOT open the sunroof. Doing so will only increase the risk of fire. Get safely away from the vehicle and dial 911 for emergency assistance. DO NOT attempt to extinguish a vehicle fire on your own.
