04/16/2020	SPANISH Inbound Customer: [redacted] Customer called seeking assistance, his vehicle "broke down" In North Charleston, SC. He had to take his vehicle over to dealer Rick Hendrick Jeep Chrysler (26534). The SA James informed him that the vehicle would be completed today April 16 2020. The customer flew to the dealer due to the customer living in [redacted] MISSION TX USA [redacted] a 20 hr drive or a 6 hrs Plane ride to the dealer. When he arrives at the dealer, the vehicle was not repaired and it's in need of a part (CLUTCH) that has and ETA of April 20, 2020. CM apologized for the inconvenience and informed the customer that she will call to the dealer and Appropriate Factory Resources for further assistance. Outbound Dealer: (843) 569-2700 Parts Adviser: James PART: 68359842AC ORDER: [redacted] OMC: [redacted] GPOP ETA: Apr 20,2020 VOR: (Yes) RENTAL: (No) RENTAL START DATE: (N/A)
04/16/2020	CM Spoke with Site Lead Tommy for further assistance. THE CONVERSATION WENT AS FOLLOWED Neisha- There is 2019 RAM 3500 TRADESMAN down due to a clutch part and the customer lives in a different state. CM continued to explained that the customer flew to the dealer Today due the the SA informing him that the vehicle will be done today. However, the part's ETA is April 20. Tommy- Site Lead asked what are our option. Neisha- Either we fly him back, but the cost of the flight was $255.60 x 2, because we have to fly him back to SC on Monday or we keep him there until Monday Tommy - If we fly him back, he shouldn't schedule a flight until we have confirmed that the vehicle is back together. I am fine with covering both of those, even though it's the dealership that screwed up Neisha- I will see which is more convenient for the customer with the customer and let you know... The customer decided that the best thing would be to fly back home. I informed that I will keep an eye out for the part and the repairs and also to not schedule anything until we give him the green light.

Hola Sr. [redacted]

Como discutido por teléfono, FCA se compromete en reembolsarte el dinero que estarás usando para el pasaje de vuelta a su hogar al igual que el pasaje cuando el vehículo sera reparado official mente.
El pasaje tiene que sera cerca del costo usado en el pasaje que se compro para el día de hoy ($255.60). Si se sobrepasa de ese costo, favor de devolverme la llamada para ver si es aprobado por FCA.

Thank you for choosing Fiat Chrysler Automobile,

Buenas tardes Neisha,

Me estado tratando de comunicar contigo desde la semana pasada contigo pero no eh tenido respuesta. Qué pasó con el reembolso de la mensualidad de la camioneta? También solo me están reembolsando 2 boletos de avión cuando yo tuve que comprar 4. El reembolso de la mensualidad se los estoy pidiendo por todo el tiempo que estuvo en el dealership (4 semanas). Me gustaría mucho perder resolver esta situación lo antes posible.

Saludos

Hola Sr. [redacted]

Lamento tener que informarle que el reembolso del mese de pagare del vehicle no se va a poder dar. Desafortunadamente, según la política de la compañía, el vehículo no estaba en reparación por mas de 2 semanas ni la pieza no tardó en llega más de 1 semana . FCA solo puede reembolsar los boletos de avión: Hora y fecha del vuelo 16 de abril de 2020 entre las 1:45 p.m. y las 7:24 p.m. y Hora y fecha del 2nd vuelo el 11 de mayo entre las 12: p.m. a las 8:30 p.m.

11/08/2021	Customer is asking about the CEL coming on and he is pulling a trailer. In Service Date 10/4/2021 and he is on his way to Illinois.
11/08/2021	Y76 Safety Campaign 2021-2022 HD Ram Grid Heater Relay Advised customer of this recall and that it may or may not be related to the issue that he is complaining of.
11/08/2021	He says that there are lights on stating: SERVICE DEF system, see dealer maximum speed will be 5 mph in 148 miles so he believes that it is going to go into limp mode after that 148 miles but he says that he is trying to get to a town.
11/09/2021	Cx states that he is close to Little Rock Arkansas and believes that he can make it there. Apologized and advised customer of the $1000 trip interruption coverage. Let him know that there will be an open case number and he does not need to write it down. We can pull it up by phone number, name, VIN ets.
11/09/2021	***OB to Cx*** Confirmed and updated servicing DLR that the customer is at. Asked for the SA who he says is Alan. Customer is asking what if they cannot fix it? He states that EGR, DEF, and limp mode are all pulling codes and he believes that this brand new vehicle is not going to be fixed. He states that he is reading reviews and is concerned about the vehicle just not being a good vehicle.
11/09/2021	***OB to DLR*** Asked for SM she says is Tommy Leath, transferred call, had to lvm.

12/20/2021	Writer emailed SM Tricia - triciaf@elkomotorco.com Good Afternoon Tricia I am reaching out regarding this mutual customer reached out to Fleet Customer Care regarding their vehicle being down for an issue with the transfer case. The customer has asked if we are able to assist with the repair however I would need to gather more information in order to review that. Can you advise on what the concern was that the customer came in for, what the diagnosis was and confirm if that is indeed the recommended repair.
12/20/2021	Email to the customer Good Afternoon We received your case regarding your 2020 Ram 5500 that is down at Elko Chrysler in Elko NV. I reached out to the Service Manager at the dealer to gather more information as well as discuss possible repair assistance.? What was the concern that brought you to the dealer?
12/22/2021	Email received from SM Tricia 12/21 <triciaf@elkomotorco.com> Hey there! Yes we can help however we can, just keep in mind our schedule for chrysler, dodge, jeep, and ram is booked until the 2nd week of Jan. If they get it towed in we can keep it here safely and then diag and work on it once it arrives :)
12/22/2021	Writer replied to SM Tricia <triciaf@elkomotorco.com> Good Morning When the customer initially contacted us they advised the vehicle was already at the dealer, is it not there?
12/24/2021	?Writer following up on 12/28
12/27/2021	***** CUSTOMER CONTACT ***** [redacted] Customer called to follow up, writer advised based on a recent email from the dealer the SM indicated the vehicle may not be at the dealer, asked customer if it is. Customer stated yes its there he has been working with SF David, they have torn down and ordered a part. Customer stated he was told he had to agree to the repairs moving forward before parts could be ordered. Writer advised if no response from the SM he can certainly call the SF to discuss the case and gather the information needed. Customer stated David gave him a direct line to reach him, 8062318597. Writer advised he will have to confirm with the dealer if he is able to assist upfront or if we will need to review as reimbursement.
12/28/2021	***** DEALER CONTACT ***** Elko Chrysler Dodge Jeep| 26837 | 7757772277 Writer called to speak with Shop Foreman David. Both SF David and SM Tricia were unavailable at the moment, writer left message asking for return call or email.
12/30/2021	Writer received emails from SM Tricia Hello Sir! I am so very sorry, yes the customer was here and we are trying to goodwill this. He is 264 miles out of his warranty, we know we can goodwill up to 2K we are trying to see if we can get him more to it as it is a 5K repair. They said we need preapproval for that. What can you do to help us out? Thank you 2nd email received Side note yes it is still here. Again I am so sorry I am wearing many hats right now and trying to keep it together. LOL Have a wonderful night!
12/30/2021	Writer replied to SM Tricia Email <triciaf@elkomotorco.com> Good Morning What is the cost for parts and labor
01/03/2022	Writer replied to email with SM Tricia <triciaf@elkomotorco.com> Good Afternoon What was the diagnosis for the vehicle?that resulted in this repair ?
01/05/2022	Writer received reply from SM Tricia <triciaf@elkomotorco.com> Hello Sir! The transfer case had internal failure and was locked in low range, no matter what you selected. This was customer pay, so the actual warranty amounts are labor $271.54 and parts $4,153.55. With that said what amounts are you all able to cover, and how much customer participation do you need? Thank you!!
01/05/2022	Writer emailed AM cc SM due to cost being over $4000 Good Afternoon Kathryn We are reaching out along with Service Manager Tricia from Elko Chrysler Dodge Jeep Ram regarding this mutual customer. The customer has a 2020 Ram with just over 100K miles on their vehicle and their vehicle is down at the dealer with a transfer case concern. As Tricia advised the issue was that the transfer case had internal failure and was locked in low range, no matter what you selected. For the repair cost the warranty amounts are labor $271.54 and parts $4,153.55, total should come to $4425.09 which is over what we can approve alone. Can you review this with us to assist in determine what assistance we can offer this customer ?
01/06/2022	********INBOUND CUSTOMER CONTACT******* The customer called in seeking update. Advised the customer according to dealer info, transfer case had internal failure and the case is still under review. Advised the customer we would notify the CM that he called in.
01/07/2022	Writer reviewed case with dealer as well as AM regarding possible repair assistance. However after review writer confirmed in part due to lack of maintainance required per the owners manual we are not able to assist with this repair,
01/07/2022	***** INBOUND CUSTOMER CONTACT ***** Michael Palmer | 407-375-6930 Customer called to speak with Kathy, specialist reviewed the case and the CM is Joe. Call was transferred to the CM for further assistance.
01/07/2022	Writer email to the dealer Good Afternoon I spoke to the customer about the decision made, as far as repairs go are those still to be completed or already done ?

Date	Comment
01/07/2022	*****INBOUND CUSTOMER CONTACT***** [redacted] Customer called in to follow up, writer advised we reviewed this with the dealer and area manager in part due to the cost of the repair. Writer advised after review required maintenance for the vehicle was not completed resulting in the vehicle not being properly maintained. Writer advised due to this we are not able to assist with the cost of the repair. Writer advised if customer would like we can keep the case open if the repairs are not already completed.
01/10/2022	CM will not be assisting the customer with cost assistance on the repair as per the Area Manager. If dealer offers assistance that is their own decision which we will not be participarting in.
01/10/2022	Writer received email from SM Tricia Hey there, yes everything is ready to go, we were just waiting for Chrysler's final approval on what they would contribute to the repair order. We would like to still do the goodwill portion on our end....really want to help this customer out.
01/10/2022	Writer replied back to email with SM Tricia Good Afternoon Going off the email from the Area Manager your able to assist however we are not offering assistance given the lack of maintenance. I have advised the customer of this as well.
01/10/2022	Writer emailed customer Good Afternoon [redacted] I am following up on our last conversation about your vehicle, as we advised before we are not able to assist with the repair cost. As I stated if the dealer is offering assistance that is up to them however we will not be participating.? The Service manager has confirmed the repairs were completed as well so you will need to finish up with the dealer and if possible confirm if any post repair issues.?
01/13/2022	Writer emailed SM Tricia <triciaf@elkomotorco.com> Has the customer picked up their vehicle or is it still at the dealer?
01/13/2022	The customer called in stating he would like another CM. Writer advised the customer that the CM has consulted his corporate resources and GW was declined. The customer asked to speak with CM's Sup. Writer advised that the Sup cannot override the decision that was made. The customer asked how can he appeal the decision. Writer advised the customer he can write a letter and advised Writer will email him the white mail address for FCA.
01/14/2022	Writer received email from SM Tricia Hello there! He has picked up, he paid his portion of the bill (4K) leaving the goodwill amount of (2K)
01/14/2022	Writer email to the customer Good Afternoon I was in contact with the dealer and I understand the vehicle was picked up and that the dealer did extend an offer to assist with a portion of the repair cost. Since the vehicle has been picked up we will be closing the case at this time. If you have any further concerns please contact our customer care.?

Initial Description

Vehicle has been in the shop in September 2021 for the same issue. The DLR cannot replicate going into limp mode, the check engine light came on, and then lose power. This is becoming a safety concern. This happens when it is hooked up to a trailer, so it doesn't seem to be able to replicate it without the trailer. Customer took vehicle to another DLR for second opinion as requested by RAM and that DLR has had the vehicle since November. So it went from being at one dlr for 2 months (sep-nov) to a second DLR who's had it since Nov 2021. Customer is not making money without his vehicle, yet he has been paying his monthly car payment of $1000/mth without the use of his vehicle. Customer would like buyback consideration as well as compensation for the time without his vehicle.

01/19/2022	*****INBOUND CUSTOMER CONTACT***** V[redacted] Customer called in advising he took his vehicle to Demontrond in Texas and they put a warranty restriction on it (previous case[redacted] and since has taken the vehicle to Frontier Motor Co and was told there was no way the restriction should have been put on the vehicle. CM advised customer the case would be looked into to possibly have the restriction removed.
01/20/2022	*******OUTBOUND DEALER CONTACT **** FRONTIER MOTOR CO *** 68515 *** (405) 262-6433 CM called the dealership and talked to the SM Richard. The SM confirmed he knew about the situation but his local rep DJ was unable to do anything. The dealership and field rep that put the restriction at Dealer code 44231 would need to remove it. The SM advised it wasn't a big deal, that if any work needed to be done, the dealership doing the work would just need to call in for an authorization if it was anything to do with the drivetrain. CM thanked the SM for the feedback.
01/20/2022	*****OUTBOUND CUSTOMER CONTACT*****[redacted] called the customer but had to leave a voicemail. CM advised she would send an email shortly.
01/20/2022	******* OUTBOUND CUSTOMER EMAIL *****[redacted] Hi[redacted] I just left you a voicemail, but I wanted to let you know I would be looking into the concerns for the restriction on your vehicle. If you can respond to this email that you received it ? Thank you,
01/20/2022	*****OUTBOUND CUSTOMER CONTACT*****[redacted] CM called the customer back as he had called the CM earlier. CM advised she had called the first dealership and found out that the other dealership would need to remove the restriction. Customer states he is extremely upset as he was never informed, or called or emailed of the news that the drive train would be on restriction. CM advised she did not have any information at the moment and was going to call the dealership tomorrow to confirm information. Customer state he dealt with SM Mike and the rep was Scott. Customer states he wanted to file a grievance or post a bad review for this dealership but didn't know what he should do. CM advised she would do her best to get to the bottom of this situation. CM confirmed the customer would prefer to be called as the email on file was for his daughter.
01/21/2022	******OUTBOUND DEALER CONTACT *****DEMONTROND AUTO COUNTRY *** 44231 *** (936) 539-3181 CM called the dealership but had to leave a voicemail for the service manager. CM left the case and her direct line for reference.
01/22/2022	*****OUTBOUND CUSTOMER CONTACT*****[redacted] CM called the customer but had to leave a voicemail. CM advised she would follow up next week as she had to leave a voicemail for the other dealership.
01/24/2022	******OUTBOUND DEALER CONTACT *****DEMONTROND AUTO COUNTRY *** 44231 *** (936) 539-3181 CM called the dealership and spoke to the SM Shawn. The SM confirmed that the vehicle was overloaded, had a dump bed in it, the extras were not done by a reputable upfitter as there were no stickers confirming the approximate weight of the vehicle. CM asked who the TA was that put the restriction on. The SM confirmed it was Tim Mancini, and his area manager and the local area manager had talked about the concerns. The SM confirmed he didn't know what the outcome was for the issue, as he thought the area managers would have handled it. The SM also mentioned he had not seen this vehicle for almost a year. CM thanked the SM for taking the call.
01/24/2022	*****OUTBOUND CUSTOMER CONTACT*****[redacted] CM called the customer but had to leave a voicemail. CM advised she would need to reach out to the area manager but that may take some time. CM advised she would follow up later this week.
01/24/2022	AM's have been emailed for feedback
01/24/2022	*******INBOUND CUSTOMER CONTACT****** The customer was calling to speak with his CM. I was able to get the customer over to the CM for further assistance.
01/24/2022	*****INBOUND CUSTOMER CONTACT*****[redacted] Customer called in as he is hoping to come to some sort of resolution regarding the restriction. CM advised she spoke to the SM Shawn at the other dealership and was informed the vehicle was overloaded, had a dump bed on it, was not done by a reputable upfitter and they could not confirm the weight of the vehicle. CM advised she didn't have too many answers at the moment but would need to wait for the Area managers and the field rep to respond.
01/26/2022	******* INBOUND TA EMAIL ***** Hello Neela, I placed the restriction on the vehicle back in 2020, it's actually a drivetrain restriction, so that would be engine, trans, and drive line items are on restriction. It was for the vehicle being severely overloaded with excess weight, more than that truck can handle. I placed the restriction for awareness so that if anything turns up damaged, that it should be inspected to see if it is related to the upfit and extreme weight on the vehicle. I would be very surprised if Sean or anyone at Demontrond would've told the customer I was going to contact him. I do not do that, nor did I say I was going to. If he has 5 other trucks like this, I would be concerned about them too. I copied Jerry on this to see if he has any knowledge of this or the company that did the upfits. Tym Mancini Technical Advisor
01/26/2022	*******INBOUND TA EMAIL ***** Hi Neela, I don't have a problem with you sharing why it was restricted, unless anyone else has concerns. Just to be clear, that doesn't mean he does not have a warranty or that we wouldn't cover something if it was warranty related, we just put that there as a precaution due to the way the truck is being used beyond its capabilities. Tym Mancini Technical Advisor
01/26/2022	*******INBOUND TA EMAIL **** JERRY HOWARD JR. Neela, The warranty restriction will remain in place. I'm inclined to agree with Tym that the vehicle's are being overloaded. I see this often because the 2500 is cheaper than the needed 3500.

Date	Comment
01/27/2022	*****OUTBOUND CUSTOMER CONTACT***** [redacted] CM called the customer to advise of the information from the Field rep. Customer is upset as he feels fraudulent actions have taken place. CM explained what the TA Tym had emailed : I placed the restriction on the vehicle back in 2020, it's actually a drivetrain restriction, so that would be engine, trans, and drive line items are on restriction. It was for the vehicle being severely overloaded with excess weight, more than that truck can handle. I placed the restriction for awareness so that if anything turns up damaged, that it should be inspected to see if it is related to the upfit and extreme weight on the vehicle. Just to be clear, that doesn't mean he does not have a warranty or that we wouldn't cover something if it was warranty related, we just put that there as a precaution due to the way the truck is being used beyond its capabilities. Customer started arguing and feels that his warranty is void and wants to sue Chrysler. CM explained that his warranty was not voided, but there would just be extra steps the Stellantis dealership would need to do for any repairs having to do with the drivetrain. CM advised the dealerships usually rule out if it is the upfit or if it is a Stellantis issue and then proceed if the repairs are warrantable or not. CM asked the customer to send his list of questions through the case so she could forward over to the TA. Customer wanted the CM to call the dealership and explain to them the process as well. Customer would like someone to call the customer back other than the CM to reiterate why his upfit is not up to standards / measurements and specs. Customer said his dump bed was done by a guy who is a welder in Oklahoma but would not divulge his name or number. CM had mentioned the names that were more familiar to get upfits done : Knapheide was a common upfit, or " Convoy " specializes in dump beds and " Bullhead " have aluminum bodies. CM also mentioned the NTEA - National Truck Equipment Association. CM explained that the max payload for this truck was 10852 lbs and the max tow load 17352 but there is a limit for the rear axle, and that is why the TA placed a restriction on the drivetrain. Customer still argued that the TA should not have been allowed to place a restriction on his vehicle without physically looking at the vehicle, and only going by what the previous dealership provided in pictures.
01/28/2022	*******OUTBOUND DEALER CONTACT **** FRONTIER MOTOR CO *** 68515 *** (405) 262-6433 CM called the dealership and talked to the SM Richard about the customer's vehicle. The SM confirmed the customer called him last night and wondered if the CM had called. CM asked if the SM had an email as it was laid out properly with the wording in an email from the field rep. The SM provided : richardtow@frontierautogroup.com and the CM sent the SM an email. The SM confirmed he received it and confirmed it seemed very self explained. The SM confirmed he had no problem calling in for any authorization for any future repairs that may need to be done on the vehicle. CM thanked the SM for taking the call
01/28/2022	****CUSTOMER CONTACT**** [redacted] spoke to [redacted] Customer [redacted] questioned who writer represents. Writer explained they are with Mopar and are involved in warranty situations. Victor states the dealer had assumed the vehicle was overloaded because of the restriction on the vehicle. Writer explained the difference between defective failure versus a caused failure. If, for example, there is a transmission failure the process would be to tear it down to point of failure. This teardown process would be the same whether or not there was a flag placed on a VIN. Customer (Victor) states he wants something compensated maybe a couple oil changes from Chrysler. Then they are going to go after the dealer. What can they do to the dealer that submitted photos to field representation. Dealer was totally disrespectful by having the vehicle flagged without telling them. They want the flag removed. Writer explained the flag would remain out of process and if indeed their vehicle is not overloaded then there should be nothing to worry about. Customer states they don't know what she knows about trucks and guys that are looking at it they act like they're nuts. Just remember this when somebody tells you that your vehicle is overloaded where do you come up with that. They have had this vehicle formally weighed and it is clearly not overloaded. Customer states who would they talk to about finding out more detail on why their vehicle got flagged in the first placed. Writer explained this communication would be with Neela as it appears they had spoken to the service manager over at the Demontrond dealership. Writer explained their case manager, Neela, has communicated with both dealers and to some extent a level of education has been relayed. Writer explained the restriction notes are the important factor and that a heavy investigation had not been performed to flag the VIN. Customer states they want the writer to have a restriction placed on their vehicle. Writer confirmed they would not have an issue with it so long as they are not causing failure. If there is caused failure it would clearly show versus a defect. Customer thanked writer for taking the time to discuss and agreed any further communication would be with their case manager.

CM explained that the warranty was not voided, but there was a restriction on the drivetrain and the dealership would just need to confirm the issues were not due to the dump bed that was on there. Customer states her ex-husband ([redacted] does have a learning disability. CM advised she felt that the customer [redacted] only listened to what he wanted to hear and then started yelling at the CM the other day. Hi [redacted]

Copy and paste email from Field Rep :

I placed the restriction on the vehicle back in 2020, it's actually a drivetrain restriction, so that would be engine, trans, and drive line items are on restriction. It was for the vehicle being severely overloaded with excess weight, more than that truck can handle. I placed the restriction for awareness so that if anything turns up damaged, that it should be inspected to see if it is related to the upfit and extreme weight on the vehicle. I would be very surprised if Sean or anyone at Demontrond would've told the customer I was going to contact him. I do not do that, nor did I say I was going to. If he has 5 other trucks like this, I would be concerned about them too. I copied Jerry on this to see if he has any knowledge of this or the company that did the upfits.

Just to be clear, that doesn't mean he does not have a warranty or that we wouldn't cover something if it was warranty related, we just put that there as a precaution due to the way the truck is being used beyond its capabilities.

Hi Jana,

Charts above and information from the tech below :

The base weight of the truck is about 8,733 pounds with nothing on it, you can see that as well as the max payload and towing specs listed in the email. So depending on the weight of the added bed, that's going to eat into his axle weight ratings, as well as what he can carry before overloading it. When I saw this vehicle, it was brought to my attention by a dealer while I was there for something else. The easiest and most obvious sign of overloading is looking at the rear suspension bump stops. These are located in the rear of the vehicle on the frame. These stops showed signs of wear on them, more than you would normally see. The only way to really get that is to have enough weight to cause them to be pressed upon, which wears them down. This is how I know it's been overloaded. In addition to that, I looked for a sticker showing the truck's weight rating with the upfitted bed, and could not find it. That is supposed to be on the truck to reflect the changes in weight that the upfit made. So with this missing information and the physical signs of being overloaded, I placed the restriction on the warranty as a precaution as I could see the possibility of early failure happening to this vehicle by the way it's being used.

It's important to note that on the body application chart his truck is only capable of a maximum 9 foot dump body application.

Don□t think you can answer but these are questions I□m giving legal rep
What is date of flagging?
Are there pics of the truck sitting on the stops?
Why were we not told that truck was flagged ?
We found out a year later????
Why no opportunity to discuss the situation with the flagged?
Could be wrong but I□m going with [redacted] on experience with trucks

I□ll be in contact with dealership tomorrow

Thanks, [redacted]

Hi [redacted]

Unfortunately, I am unable to answer those questions. The service contract has been added. There is no further follow up I can assist with regarding this case, so I will need to close it. All the concerns have been documented.

Thank you,

Customer asking for assist with getting the transmission replaced

Case Comments

Date	Comment
01/31/2022	Customer brought vehicle into the dealership this past Friday and the dealership confirmed that the transmission needs to be replaced but the won't due to there being no codes and having issues with hard shifting
02/01/2022	OUTBOUND DLR CALL* 3047907752 CM Called and spoke with the PM Eric and he advised that the SA is out to lunch. He asked if CM could call back.
02/01/2022	*OUTBOUND CSUTOEMR CALL*[redacted] CM called and got no answer,CM could not leave VM .
02/03/2022	***** Email sent asking if they need any help.
02/07/2022	*OUTBOUND DLR CALL* 3047907752 CM called and was advised that they are on lunch. He then took CM number and will have them call CM back.
02/07/2022	*INBOUND DLR CALL* 3047907752 PM Eric called back and transferred CM to SA Agnie then CM went to ask how things were going she hung up the phone. CM called back and left her VM top call back with an update.
02/14/2022	*OUTBOUND DLR CALL* 3047907752 CM Called and spoke with SA Angie and she advised that the customer was there in Jan and they advised the block heater needed to be replaced and the transmission fluid was burnt. There was no codes active and they told customer to drive it till something happens.
02/14/2022	*INBOUND CSUTOEMR CALL*[redacted] Customer called in because he doesn't feel that his case should be closed. He is having an issue with his vehicle and the DLR will not help him. Customer stated that the DLR told him that Chrysler is trying to get out of payment warranty claims. DLR will not assist further because they do not want to be the one paying the claim. They advised they were told they need codes. Customer doesn't agree because vehicles done always have codes. - CM advised that the DLR needs to follow policy to have things claimed and cant do things that wouldn't get approved. - Customer stated that he understand but would like the rep to come out and see the vehicle before saying no. He will keep bringing the vehicle into the DLR until he sues us. - CM advised that i would document.
02/18/2022	***INBOUND DLR CALL* DLR Called in advising the customer dropped the vehicle off there today and is demanding tear down. CM advised that he will have to pay for tear down and if it is something that can be covered it will. Customer is responsible for the tear down.
02/18/2022	**OUTBOUND CUSTOMER CALL*[redacted] CM called and told customer that he has to approve the tear down. CM advise that if there is anything that is under warranty then it will be covered.
02/24/2022	********** Waiting for reply from DLR.
03/02/2022	*******OUTBOND DLR CALL**** 3047907752 CM called and spoke with SM Angie and she advised that the customer is not wanting the tear down,. He is going to do oil flush and transmission flush. They are going to drop oil pan and see if there is anything wrong. She advise that he has an appointment for March 10th.
03/11/2022	**OUTBOUND DLR CALL* 3047907752 CM Called and spoke w th SA Tyler and he advised they did the transfer case flush front differential flush and could not do the rear due to not having the fluid to replace it with. They did advise that there were 2 small pieces of metal but nothing to worry about. He advised that they were happy with the results. Customer has the vehicle back and everythign is running good.

Good afternoon

I hope that you had a good weekend. I have been advised that the dealer has told you that there is no active codes that there is nothing that can be done. They advised that the vehicle has not been back there since. So at this time I will be closing your file until the concern gets worse. You can refer back to this case if something does go wrong and we will pick up right where we left off.
I appreciate you taking the time to work with us and the dealership(s) to resolve your concerns. At this point as your vehicle concerns are resolved I will be closing your file with us.
If you have any questions or difficulties in the future with your vehicle, please do not hesitate to give us a call, we would be more than happy to work with you again.
I am also going to send an email regarding the closing of your case.

I want to thank you again for working with me [redacted] it has been a pleasure.

Good afternoon

I hope that you had a good weekend. I have been advised that the dealer has told you that there is no active codes that there is nothing that can be done. They advised that the vehicle has not been back there since. So at this time I will be closing your file until the concern gets worse. You can refer back to this case if something does go wrong and we will pick up right where we left off.
I appreciate you taking the time to work with us and the dealership(s) to resolve your concerns. At this point as your vehicle concerns are resolved I will be closing your file with us.
If you have any questions or difficulties in the future with your vehicle, please do not hesitate to give us a call, we would be more than happy to work with you again.
I am also going to send an email regarding the closing of your case.

I want to thank you again for working with me [redacted] it has been a pleasure.

We have rescheduled for the 10th and I am having them change the transmission fluid and dropping the pan to see if their is metal fragments. I do not feel it is right that I pay to diagnose a confirmed complaint that is under warranty. So if the fluid has no metal I will drive it till it throws a code or fails and leaves me stranded.

Good morning

I have spoke with the dealer and they advised that you have the vehicle back and everything is running good.Maybe all it needed was just the flush and maintenance. I will call next week and see how things are. If everything is good then we will close the file.

Thank you for your time!! Stay safe!!

We have rescheduled for the 10th and I am having them change the transmission fluid and dropping the pan to see if their is metal fragments. I do not feel it is right that I pay to diagnose a confirmed complaint that is under warranty. So if the fluid has no metal I will drive it till it throws a code or fails and leaves me stranded.

I hope that you had a good weekend. I have been advised that the dealer has told you that there is no active codes that there is nothing that can be done. They advised that the vehicle has not been back there since. So at this time I will be closing your file until the concern gets worse. You can refer back to this case if something does go wrong and we will pick up right where we left off.
I appreciate you taking the time to work with us and the dealership(s) to resolve your concerns. At this point as your vehicle concerns are resolved I will be closing your file with us.
If you have any questions or difficulties in the future with your vehicle, please do not hesitate to give us a call, we would be more than happy to work with you again.
I am also going to send an email regarding the closing of your case.

I want to thank you again for working with me Mr. Albrecht, it has been a pleasure.

Yes, I have not drive any distance but this was my concern with a tear down. I did not expect to find broken gears and this verified it. She the issue is with something controlling the shifting of the transmission. I should get some time to drive and see if it has improved.

Yes, I have not drive any distance but this was my concern with a tear down. I did not expect to find broken gears and this verified it. She the issue is with something controlling the shifting of the transmission. I should get some time to drive and see if it has improved.

We have rescheduled for the 10th and I am having them change the transmission fluid and dropping the pan to see if their is metal fragments. I do not feel it is right that I pay to diagnose a confirmed complaint that is under warranty. So if the fluid has no metal I will drive it till it throws a code or fails and leaves me stranded.

02/28/2022	******* OUTBOUND CUSTOMER EMAIL ***** [redacted] Hi [redacted] Based on our previous conversation. It will be entirely up to you. I can assist with my internal resources to get your vehicle fixed once and for all. The first step would be to get the vehicle to a business link dealership willing to work on it. I was hoping the last dealership would have helped or at least made a recommendation. Let me know what you want to do. Thank you,
02/28/2022	******** INBOUND CUSTOMER EMAIL ***** [redacted] s at Szott Dodge. But im not sure ill be able to trust this truck with customers riding with me. Ill decide in a couple Days. U offered to pay a couple of Payments for me if FCA will do that ill see how things work out. Sent from my Galaxy
03/02/2022	******** OUTBOUND CUSTOMER EMAIL ***** [redacted] Good evening [redacted] I received a picture of the Michigan registration form, but what have you decided ? Do you want the dealership to re-diagnose the vehicle ? Or need me to source a different business link dealer in the area ? Thank you,
03/03/2022	*******OUTBOUND CUSTOMER CONTACT **** [redacted] CM called the customer to advise she had missed seeing the one email, but would still need the proof of payment and car payment statement. Customer thought by just advising what he paid would be enough. CM advised she couldn't reimburse without proof and would need documentation. Customer states he would just be getting a lawyer. CM advised she would close the case and thanked the customer for taking the call
03/03/2022	CM will be closing the case as the customer would not send in the proper documentation to get reimbursed and was getting a lawyer

Hi [redacted]

Based on our previous conversation. It will be entirely up to you. I can assist with my internal resources to get your vehicle fixed once and for all. The first step would be to get the vehicle to a business link dealership willing to work on it. I was hoping the last dealership would have helped or at least made a recommendation. Let me know what you want to do.

Thank you,

Neela

Good evening Donald,

I received a picture of the Michigan registration form, but what have you decided ? Do you want the dealership to re-diagnose the vehicle ? Or need me to source a different business link dealer in the area ?

Thank you,

Customer called seeking assistance with a rental vehicle and also in reference to previous case [redacted]

Case Comments

Date	Comment
02/10/2022	Customer called in reference to previous case [redacted] He stated that he did contact a dealership however they have no loaner vehicles and the only way they can get him into a rental is by getting authorization from us. Customer has to have a truck due to him running a business. Customer is working with SD Andy B and his direct number is 719-329-7541. Customer is seeking assistance with this on going issue with his transmission and possible additional days for a rental. I did also make the customer aware of the open recall on his vehicle.
02/10/2022	***Inbound Customer Contact*** Customer called in demanding authorization for a rental and writer advised that the case has not gone to a CM yet. Customer wanted a Supervisor and writer was unable to get one. Wrong dealer was on file and writer updated to the correct dealer. 45349 Colorado Springs Writer advised that the process is a one business day call back for a CM. Advised if he goes into a rental $40 for 3 days no taxes no extras Customer gave an e-mail for the SD Andy@coloradosprings.com to authorize a rental. Service Director Andy's phone number is 719-329-7541
02/11/2022	*****Outbound Dealer Call***** COLORADO SPRINGS DODGE | 7194758550 Left voicemail for SM Andy.
02/11/2022	*****Outbound Customer Call***** [redacted] CM spoke with customer who advised there's an issue with the exhaust that causes the vehicle to lurch and surge and it's done that since vehicle has had 900 miles on it. Went to Perkins, and they did a relearn on the transmission, did no test drive after and vehicle did it 5 seconds after he pulled it out of the DLR, along with the 4-5 things he wanted them to address. Vehicle had alight come on 2 days ago that diesel particulate filter was 100% full and about to go into limp mode. Unsure if related. CM asked if an appointment has been set, and customer stated that at any point in time he gets confirmation from RAM, he'll get him in. Customer has owned 5 dealerships, and understands that time is important. Customer states he's having his time wasted and is disgusted. Customer mentioned Cherry Creek Dodge. Customer states threre's about 7 issues with the truck.
02/12/2022	Customer called in regards to this case, wasnt able to verify the contact information but the call just dropped.
02/12/2022	Cst calling to speak with CM. Advisor provided cm extension
02/14/2022	Voicemail from SM Andy. - *****Outbound Dealer Call***** COLORADO SPRINGS DODGE | 7194758550 Left voicemail for Andy.
02/14/2022	*****Inbound Dealer Call***** Spoke with Andy who advised customer wants a rental before he comes into the DLR.
02/14/2022	*****Outbound Customer Call***** [redacted] CM spoke with customer to advise if he can get a rental will reimburse up to $60/day. Customer stated no vehicle that price in CO. CM advised just want vehicle at DLR to begin diagnosing in order to get concerns addressed and resolved. Customer stated he does have access to other vehicles and will speak with his superintendent about using another truck, and will call SM Andy to get his truck dropped off.
02/17/2022	*****Outbound Dealer Call***** COLORADO SPRINGS DODGE | 7194758550 Spoke with Andy who advised customer was waiting on a car from Enterprise, then going to get back in touch with Andy.
02/24/2022	*****Outbound Dealer Call***** Colorado Springs Dodge | 7193297546 Spoke with SM Andy who advised truck is there, waiting on an injector. Injector should be in tomorrow.
02/28/2022	*****Outbound Dealer Call***** Colorado Springs Dodge | 7193297546 Left voicemail for SM Andy inquiring if vehicle repaired.
03/02/2022	*****Outbound Dealer Call***** Colorado Springs Dodge | 7193297546 Left voicemail for SM Andy inquiring if vehicle is done.
03/04/2022	*****Outbound Dealer Call***** Colorado Springs Dodge | 7193297546 Spoke with SM Andy who advised vehicle done and gone.
03/04/2022	*****Outbound Customer Call***** [redacted] Spoke with customer who advised DLR should have changed fuel filters as well as they changed the injectors. CM apologized for that, and offered customer a couple oil changes for the inconvenience of having to do that. Customer stated it wouldn't work as he uses different oil than the DLR would use. CM asked if there was something they could do to help make this right for customer, and customer stated that is a horrible customer service question to ask a customer. Did not have a response at this time. Customer paid $700 for fuel filters.

02/22/2022	JP Better Towing Services Wasim Yousef 409-549-8378 [redacted] Bayway CDJR Relene [redacted] Customer Request I have had this truck for less than a year, and the transmission has been replaced twice already. So this makes three transmissions in this truck and it's still doing the same thing. In addition, the fuel pump has been replaced along with the entire fuel system. Dale is the mechanic at Bayway, and he has been very helpful and great to work with. His number is [redacted] and he has a lot more information. He thought he had figured out the problem after the third transmission was intalled. However, I picked up the truck a couple of weeks ago and and it's still exhibiting the same problems. The transmission is very very aggressive on the downshift and if I don't stop a certain way there's a heavy grinding. When loaded with a vehicle, it's not always possible to stop the way I have to in order to prevent it from grinding. Also the upshift is delayed and very agggressive. It stays above 2000 RPM too long before it shifts. I haven't been able to keep the truck in service long enough to actually bring in any revenue from it. It's just costing me time and money and I would request that it be repurchased so that I can get another truck. I own other Rams and have never had this kind of problem with any of them. Thanks.

Good afternoon, Brandon

Thanks for the update on the case.

As I've stated previously, I've had the truck at the dealership many times that accumulated more than 5 weeks that the truck was down. I've had the shop foreman and the technician ride with me and have shown them the issue. The foreman and the technician even test drove it by themselves the first time I brought it in and they stated that they thought they might have to get the truck towed back to the dealership because of the issue. So they are aware of the issue and they have seen the issue even before the first transmission was replaced.

Good afternoon Wasim

I understand the accumulated downtime, however if this dealership is aware and advised it would need to be towed back to the dealership so that they can initiate another STAR can and perhaps reach out and get a Fleet TA involve.. that is the next best step.

I am happy to leave the case open if the vehicle is heading to the dealership or appointment set.
Please let me know.

Good afternoon, Brandon

I think you misunderstood my last message. The dealership did not state that it needs to be towed to the dealership. When I brought the truck in for them to replace the transmission the first time, the foreman and the tech went and test drove it together to try and replicate the issue (As you advised in your previous email). Because they have never seen an issue like this before, they thought that the truck might not make it back to the dealership. That's all I meant. But, the tech that worked on my truck is aware that the issue has not been resolved. So, how would you like to proceed? Thanks.

Hello Wasim

I have spoken to Service Manager Betty at River Oaks dealership.

They do not take appointments. Betty states you will need to drop off the vehicle and ask for William who is the Service Advisor.

They will need to go through new diagnostics at this dealer, and initiate another STAR case before committing to a FLEET TA visit.

Good afternoon, Brandon

Hey so I spoke to Christie this morning. I assume she gave you the message. You need to set up an appointment with the TA so that the truck isn't sitting at the dealership waiting on him to show up. This is per the TA himself. If you have any questions, just give me a call. Thanks. All the best

Hello Wasim

You will have to work with the dealership around your schedule and their advise on when to bring the vehicle in at a time when you can drop it off with notice on when the Fleet TA will be there.

Normally, they would not try to schedule a TA without the vehicle there already so you will have to work this out with the service manager personally.

Hey Brandon,

Again, what i told you is what what the service manager at the dealership and the TA himself advised me. They said that you should have reached out to the TA to coordinate this. Please advise what we will do from here. Thanks

Wasim

We do not reach out to the FLEET TA's from customer care.
The appointment needs to be set up through the dealership initially.

If you need to make special arrangements to drop the vehicle off when a Fleet TA will be there, that is up to the service manager to advise you when his local FLEET TA will be there.

I do not have those contacts or authorization to schedule an appointment, nor do I have your schedule to let you know when you can just drop it off without notifying the dealership.

Please co-ordinate a time with the Service team and advise of the appointment.
I will keep the case open until Tuesday, March 29th

Brandon

Attached please find invoices from Empire showing the completed work on the above captioned vehicle. This vehicle was purchased for my business. During the 2022 snow season I could not use this vehicle. I had signed contracts for commercial properties to do snow removal therefore I had loss of wages. I continued making my loan payments for the vehicle that was sitting in a garage being worked on. I continued paying insurance on a vehicle that served me no use. Please see what you can do to help me with this situation.
Thank you

Michael D'Andrea

Dear Mr. Michael Dandrea,

Thank you for contacting Ram Customer Care. We are happy to assist you with regards to your concern. Your satisfaction is important to us!

We are pleased to inform you that we have approved a total of $1,172.50 for the car payment reimbursement you have requested. Please be advised that we can only cover for 2 and a half months of car payment since this is the only time that matches the repair dates. Also, we do not usually cover for car payment, but this reimbursement is being done due to your inconvenience. We will be sending the check to the mailing address on file for you. Please allow 30 calendar days for the check to arrive.

Please don't hesitate to contact our Customer Care team directly at 800-992-1997, for any other concerns. Thank you for your continued business with Ram Automobiles.

Sincerely,

Cern

Hello,

I am attaching the required documents for reimbursement for a rental car that wasn□t covered by dealership when my 2020 Ram 3500 was at dealership awaiting transmission parts due to transmission failure. Which was covered by Chrysler manufacturer warranty. When I spoke to dealership about covering the expense of a rental vehicle they told me that they couldn□t do anything about it since it wasn□t a Chrysler vehicle that Hertz had given me. I asked them how was I supposed to know that it had to be a Chrysler vehicle and I also asked Hertz about it and they said that at the time what they gave me was all that was available due to nationwide vehicle shortage and that the dealership should still honor it in covering the expenses due to that. If there□s anything else you need please let me know. Thanks for your time.

Initial Description

My truck has had many many issues...I paid $83,500 for a vehicle hoping to have reliable transportation and providing me a vehicle to haul my 5th wheel (my home), I am dealing with Cancer treatments right now and a truck that has been in the shop several times. I am now driving my deceased dad's 2004 Jeep to get me where I'm going, I live in a 5th wheel and NEED a truck to maintain my lifestyle, not one that is in the shop all of the time...

I am looking into the Lemon Law, I really feel that all that has been done to my truck it will never be the truck I ultimately purchased. I also noticed on my on-line dashboard that the Recalls have not been addressed, one has, it's what the truck was in the shop for 2 months for (three rentals and a few frustrating steps through that 2 month ordeal),we're still having problems with that part of the repairs..when in there they did not address the windshield wiper recall, not sure why that didn't happen or why my on-line information has not been updated. The Transmission has not worked right since we've had it, we've had it looked at 3 different times.:*(

I am looking into the Lemon Law, I really feel that all that has been done to my truck it will never be the truck I ultimately purchased. I also noticed on my on-line dashboard that the Recalls have not been addressed, one has, it's what the truck was in the shop for 2 months for (three rentals and a few frustrating steps through that 2 month ordeal),we're still having problems with that part of the repairs..when in there they did not address the windshield wiper recall, not sure why that didn't happen or why my on-line information has not been updated. The Transmission has not worked right since we've had it, we've had it looked at 3 different times.:*(

Hello Karen

Thank you for contacting Ram Customer Care.

We can understand the dissatisfaction that you feel, given the concerns with your 2020 Ram 3500. We want to guarantee that we take the appropriate steps to ensure your concerns are addressed, and ultimately resolved as best as possible.

Your email has been reviewed and due to the nature of your concern, we have forwarded your case to our Case Specialist department for their attention and response. You will be contacted within 1 business day.

Escalating your situation to a Case Specialist will provide the dealership and yourself with an individual who will review your concerns, then assist you and the dealership in exhausting all available resources to have the concern addressed and resolved.

If you have any additional questions or concerns, please contact us at 1-866-726-4636.

Thank you again for your email.

Best wishes,

Mary-Lyn

Good Afternoon Mrs. Staggs,

I wanted to keep you up to date of what I'm aware of currently. The parts ETA from the dealer side states that it would be coming in around September 6th. I'm still waiting word for further updates from the Parts Specialists who are trying to help with the tracking. I'll get back to you once I get further word. Have a great weekend.

Sincerely

Hello Karen

Thank you for contacting Ram Customer Care.

We can understand the dissatisfaction that you feel, given the concerns with your 2020 Ram 3500. We want to guarantee that we take the appropriate steps to ensure your concerns are addressed, and ultimately resolved as best as possible.

Your email has been reviewed and due to the nature of your concern, we have forwarded your case to our Case Specialist department for their attention and response. You will be contacted within 1 business day.

Escalating your situation to a Case Specialist will provide the dealership and yourself with an individual who will review your concerns, then assist you and the dealership in exhausting all available resources to have the concern addressed and resolved.

If you have any additional questions or concerns, please contact us at 1-866-726-4636.

Thank you again for your email.

Best wishes,

Mary-Lyn

Good Morning Mrs. Staggs,

I had got in contact with Diego and he states that he got a hold of the tech. He stated to me that the repairs should hopefully be repaired by Friday. I will follow up either tomorrow or early next week to see if the repairs have completed and if they are satisfactory. Speak with you soon. Have a great one.

Dear Mrs. Staggs,

I was finishing up the reimbursement and I was only able to reimburse for $325.32 because we do not cover add ons. I was wondering if you could verify your address so I can send it up. Thank you so much. Have a great one.

Hello Karen

Thank you for contacting Ram Customer Care.

We can understand the dissatisfaction that you feel, given the concerns with your 2020 Ram 3500. We want to guarantee that we take the appropriate steps to ensure your concerns are addressed, and ultimately resolved as best as possible.

Your email has been reviewed and due to the nature of your concern, we have forwarded your case to our Case Specialist department for their attention and response. You will be contacted within 1 business day.

Escalating your situation to a Case Specialist will provide the dealership and yourself with an individual who will review your concerns, then assist you and the dealership in exhausting all available resources to have the concern addressed and resolved.

If you have any additional questions or concerns, please contact us at 1-866-726-4636.

Thank you again for your email.

Best wishes,

Mary-Lyn

Good Morning Mrs. Staggs,

I had got in contact with Diego and he states that he got a hold of the tech. He stated to me that the repairs should hopefully be repaired by Friday. I will follow up either tomorrow or early next week to see if the repairs have completed and if they are satisfactory. Speak with you soon. Have a great one.

Hello Karen

Thank you for contacting Ram Customer Care.

We can understand the dissatisfaction that you feel, given the concerns with your 2020 Ram 3500. We want to guarantee that we take the appropriate steps to ensure your concerns are addressed, and ultimately resolved as best as possible.

Your email has been reviewed and due to the nature of your concern, we have forwarded your case to our Case Specialist department for their attention and response.

You will be contacted within 1 business day.

Escalating your situation to a Case Specialist will provide the dealership and yourself with an individual who will review your concerns, then assist you and the dealership in exhausting all available resources to have the concern addressed and resolved.

If you have any additional questions or concerns, please contact us at 1-866-726-4636.

Thank you again for your email.

Best wishes,

Mary-Lyn

I am looking into the Lemon Law, I really feel that all that has been done to my truck it will never be the truck I ultimately purchased□ I also noticed on my on-line dashboard that the Recalls have not been addressed, one has, it□s what the truck was in the shop for 2 months for (three rentals and a few frustrating steps through that 2 month ordeal),we□re still having problems with that part of the repairs□.when in there they did not address the windshield wiper recall, not sure why that didn□t happen or why my on-line information has not been updated. The Transmission has not worked right since we□ve had it, we□ve had it looked at 3 different times□:*(

Good Afternoon Lesley,

After your conversation with my husband chuck, as promised here is written approval for you to please move forward on the Lemon Law investigation pertaining to our 2020 Dodge Ram. Thank you for everything you have done for us, you are GREAT at what you do and I feel fortunate that you are on my team. Here□s hoping this finds some resolve for this long Dodge journey, if it doesn□t, the good news is you and I can still chat. Stay safe and thank you again.

Good Morning Mrs. Staggs,

I had got in contact with Diego and he states that he got a hold of the tech. He stated to me that the repairs should hopefully be repaired by Friday. I will follow up either tomorrow or early next week to see if the repairs have completed and if they are satisfactory. Speak with you soon. Have a great one.

Sincerely

Dear Mrs. Staggs,

I was finishing up the reimbursement and I was only able to reimburse for $325.32 because we do not cover add ons. I was wondering if you could verify your address so I can send it up. Thank you so much. Have a great one.

I am looking into the Lemon Law, I really feel that all that has been done to my truck it will never be the truck I ultimately purchased□ I also noticed on my on-line dashboard that the Recalls have not been addressed, one has, it□s what the truck was in the shop for 2 months for (three rentals and a few frustrating steps through that 2 month ordeal),we□re still having problems with that part of the repairs□.when in there they did not address the windshield wiper recall, not sure why that didn□t happen or why my on-line information has not been updated. The Transmission has not worked right since we□ve had it, we□ve had it looked at 3 different times□:*(

Hello Karen and Charles,

Thank you for the information. That log has been sent over to Hunter Dodge and it sounds like they will need to have you book an appt and maybe go on a test drive with one of the technicians to see if they can duplicate the issue you are having.

Let me know if you are able to book an appt with them so we can further assist.

We've already done that and the technician was with us when it happened. My truck has been @ H.W. Hunter's for 4 months out of this year, the years not even done yet.:/ I'm sure in your notes you have noticed, we live in a 5th wheel, we are sitting ducks should something happen, i.e.., fire, flood, electrical panel goes bad at our spot, we need to move our location every 3 months as a rule in the RV World here pertaining to residency laws.we need our truck.that's why I purchased a Dodge Ram top of the line vehicle. I paid a lot of money (cash) for it and am so frustrated in this whole experience.
I have breast cancer and I need a vehicle to go to treatment and cancer appointments, at one point in this past 4 months of Hunter having our truck, because of ownership changes, they would not get me a rental, I paid $83,000+ for a vehicle and I had to drive my deceased father's 2004 Jeep (my husband had to put $2,000 worth of work towards the jeep just to get it running) to get to my cancer treatments and grocery store, they had my truck for 2 months that particular instance ...this truck frustration adds to the hardships I've already been dealt with.please help us find some kind of resolve for this mess. My truck has been in the shop 3 times for this same issue with no resolve.they've replaced the transmission.the problem is the same if not worse than when we first reported it. below and attached is a picture of our 5th wheel..It also bucks terribly

when we pull our 5th wheel and throws belongings all over the coach when being pulled because of the bucking :*(

Karen,

I can't imagine the ordeal of having that occur and I absolutely want to get this addressed. The vehicle was not at the dealer when I was involved and the service manager is advising that there was no abnormality found after the transmission was replaced, according to the technician.

In order for me to do my part, and to have the dealer check this issue as you have advised I can intervene.

I definitely want to get this resolved but I need the dealer to duplicate a problem and that the bucking issue is either within spec our out of spec.

Patricia,

They absolutely have been notified that the problem still exists!! Diego X-104 In the Service Department Truck Division at HW Hunter and Leslie at Chrysler Corp were notified that the problem still exists.the mechanic is giving you incorrect information. We notified Diego X-104 the first day we had it back, actually the day we got it back and Leslie a few days later as Florida was shut down for a partial week due to the hurricane. Believe me, I will reach out to them again and get THIS straightened out.I would like nothing more than to say it all works nice, the absolutely last thing I want or NEED is for my truck to not work correctly. My husband just got off the phone with Diego x-104 just now and he new that we were still having issue and that they needed to go for a ride with us so it frustrates me to no end

that you've been told we have not notified anyone...Diego wanted to know when we could go for a test drive, I told them I could come pick them up now.he said he will get back to us.:/

Robert the technician and I brought the truck up to where it "does it's thing" and he had it hooked up to a computer. Robert said he is going to send the readings to you, he got several.

A note about Robert: He's a very knowledgeable loyal employee.

He's definitely a huge asset to Dodge..Huge.just saying.lots of changes going on at Hunter, I hope someone recognizes the value this man brings to the Dodge community.

Robert has eased my mind on a few of the issues we are having after the extensive work that has been done on our Truck and went over the readings with me. Please let me know what you think.as always, thank you so much for your help in this matter.

Hello Charles and Karen ,

I did get the compensation submitted. A new case has been opened with our Reacquired Vehicle Team and your new Case Manager will be reaching out to you in the next few business days up to a weeks time.

Your new Case Manager will discuss the process of your compensation in more detail, however, if you□d like to start gathering the documentation listed below, this will help progress your case more quickly. The following documentation may be needed for your compensation, when contacted:

A copy of the driver□s license(s) of all titled owners

A copy of the vehicle registration

I do have to close our case to allow you to continue working with them. However, please feel free to contact me directly any time you have questions or concerns, at (248-464-6694 Ext: 1242)

We wanted to let you know that we attempt to conduct a satisfaction survey upon the close of a case; therefore, you could potentially receive an email or telephone survey. We□d ask that you take the time to complete the survey so we□ll know how we□re doing and what improvements we can make to enhance the customer experience. Thank you for your time and participation and for being a Stellantis customer.

It has been a pleasure working with you, all the best

Hello Charles and Karen ,

I did get the compensation submitted. A new case has been opened with our Reacquired Vehicle Team and your new Case Manager will be reaching out to you in the next few business days up to a weeks time.

Your new Case Manager will discuss the process of your compensation in more detail, however, if you'd like to start gathering the documentation listed below, this will help progress your case more quickly. The following documentation may be needed for your compensation, when contacted:

A copy of the driver's license(s) of all titled owners

A copy of the vehicle registration

I do have to close our case to allow you to continue working with them. However, please feel free to contact me directly any time you have questions or concerns, at (248-464-6694 Ext: 1242)

We wanted to let you know that we attempt to conduct a satisfaction survey upon the close of a case; therefore, you could potentially receive an email or telephone survey. We'd ask that you take the time to complete the survey so we'll know how we're doing and what improvements we can make to enhance the customer experience. Thank you for your time and participation and for being a Stellantis customer.

It has been a pleasure working with you, all the best

Patricia

I was told is that on July 29th they said it would be 3 to 5 days. And no further communication to update that outdated information.

Thanks for checking.

Do you think there is something wrong with the system since this is the same message we have had for several weeks?

Is there a phone number to the dealer I can call and ask?

Seems odd that a dealer to dealer transfer can take three weeks.

Dealer got the same old information this morning from July 29th.
They tell me they don't even know what dealer it's coming from.

Seems as though something has stalled out.

Help!

Thanks!

Do you think there is something wrong with the system since this is the same message we have had for several weeks?

Is there a phone number to the dealer I can call and ask?

Seems odd that a dealer to dealer transfer can take three weeks.

Just received a call from Service Writer Paul who advised that this repair still a couple of weeks out.
I did advise him of what Brian stated about the repairs starting this week, but unfortunately, the communication today is that this vehicle is in line behind several others.

We currently own 2549 Ram or Dodge products, from 1500 to 5500 models. Not know how many have passed through our doors over the years.

We would constantly be submitting paperwork for reimbursement with all the equipment sitting in dealer shops for months on end.

I am just venting!

But thanks for the offer.

Do you think there is something wrong with the system since this is the same message we have had for several weeks?

Is there a phone number to the dealer I can call and ask?

Seems odd that a dealer to dealer transfer can take three weeks.

Is there a phone number to the dealer I can call and ask?

Seems odd that a dealer to dealer transfer can take three weeks.

Dealer got the same old information this morning from July 29th.

They tell me they don□t even know what dealer it□s coming from.

Seems as though something has stalled out.

Help!

Thanks!

Do you think there is something wrong with the system since this is the same message we have had for several weeks?

Is there a phone number to the dealer I can call and ask?

Seems odd that a dealer to dealer transfer can take three weeks.

Sad situation.

Too bad it cannot be subcontracted. We could get it done in one day.

Thanks for the follow up.

We currently own 2549 Ram or Dodge products, from 1500 to 5500 models. Not know how many have passed through our doors over the years.

We would constantly be submitting paperwork for reimbursement with all the equipment sitting in dealer shops for months on end.

I am just venting!

But thanks for the offer.

Hello Ms.Mendoza

I am reaching out to see if you have received your vehicle and how it is working?

If everything is working fine and no further assistance is needed you do not need to do anything and I will close out the case on 10/11/22.

You will also get a survey about your experience with me and how I handle your case it would be greatly appreciated if you took part in the survey

However, if you still require assistance or did obtain a rental please reply to the email with the rental docs and/or give me a call back advising how I can be of assistance.

thank you,

10/14/2022	<< CALL FROM DEALER SM RINGO Advised that the Vehicle was towed out last night DLR was not aware of a previous Transmission repair but cannot accommodate this vehicle Peterbilt store 4 or 5 miles down the street
10/14/2022	>> MAIL TO CUSTOMER Good afternoon Service Manger Ringo called back and advised that the vehicle was towed away last night He did mention that there is a Peterbilt Truck Center about 5 miles away.
10/14/2022	>> MAIL TO CUSTOMER Nobody has approved anything. The vehicle needs to be diagnosed before anything gets approved. You will need to make arrangements with Peterbilt and see if they can accommodate this vehicle. *** Most likely, they will charge a diagnosis fee, however if there is an indication that this is a warrantable concern, than Orlando Dodge will need to get their Area Manager involved for next steps.

10/18/2022	>> MAIL TO CUSTOMER Recommended dealer to try: They will need to know all your vehicle dimensions Please contact them to see if they can accommodate NAPLETON'S CLERMONT CHRYSLER JEEP Phone 407-656-0204 Address 15859 STATE ROAD 50 CLERMONT, FL 34711
10/21/2022	>> MAIL TO CUSTOMER Good afternoon What did NAPLETON'S CLERMONT?advise about accommodating your vehicle? The Area manager will most likely not give approval to?Cox Automotive unless all other avenues have been exhausted.
10/24/2022	>> MAIL TO CUSTOMER . DEALER Good Morning The Napleton Dodge Clermont dealership. Should?be reaching out to their area Manager to get approval for an IRF to perform the work. Orlando Chrysler dealership is out of the picture at this time. This is what I advised over the phone. Darren, are you Service Manager at Napleton's?
10/26/2022	>> MAIL TO ORLANDO DLR / AM Good afternoon If Orlando and Napelton's dealerships are not able to accommodate this VIN, An Area Manager would need to approve warranty or safety recall repairs to be performed at an IRF or non-bizlink dealership.

11/10/2022	>> CRM / CM EMAIL The vehicle should be taking to an approved business link dealer in the area. Thanks, ========== >> REPY TO SF-CRM not possible. The FLEET TA has already investigated the concern and ALREADY CONFIRMED a bizlink dealer cannot accommodate this vehicle and has requested approval for IRF to perform the repair. ========== What specifically is the repair? Is the repair covered under warranty? Thanks, ========== It is a transmission concern According to FLEET TA on Nov 2: Good afternoon, Brandon, Thank you for getting that information. Especially with the picture when they had it at Orlando Dodge, the size is considerable on this. I had already email Wanda Cunningham on this about approving at an independent facility. 11/14/2022	>> MAIL TO AM / DEALER Do we have confirmation that the dealership has reached out to this customer to bring is vehicle back to Napleton's?
11/15/2022	<<< MAIL FROM FLEET TA Good afternoon everyone, Given the size of it the Independent Repair Facility will likely be the only spot that will have enough space to properly lift this like I mentioned in the email from the 31st. Would the dealer be able to list the repair as third party like many of the glass and body repairs are done under? Otherwise it may have to come down to just reimbursing the customer after the fact to get this vehicle moving. 11/16/2022	>> MAIL TO FLEET TA Thank you Mike The customer has emailed me this morning.. not sure what we can do. I attached the quote he sent as well. ========== "I have attached the quote from Napleton for the parts. The total amount due is $21,464.69. There is NO way that I can afford to purchase these parts for repair. This is the reason I invested in an extended warranty to avoid charges like this. Where do we go from here? What are the other options? I do not understand why I continue to be told that approval will be assessed after diagnosis. The transmission was already diagnosed at Orlando Dodge. I will await your response on how to proceed. Thank you"
11/21/2022	>> MAIL TO FLEET TA / AM Good afternoon Is there any direction we can take on this customer's concern with the parts quote?
11/22/2022	>> MAIL TO CUSTOMER Good afternoon I have sent an email to the Area Manager and Fleet team to see if they had any direction for you on the part pricing. you may need to work something out with the dealership and the repair facility. I will reach out again on this side to see if anyone else has some ideas. *** PLEASE NOTE *** The RAM FLEET Tech has advised to have you make sure your repair facility documents the repair along with the way with photos in case anything comes up that needs to be reviewed.
11/25/2022	>> MAIL TO / AM / CRM / FLEET TA Good morning I hope everyone is doing well Case [redacted] 2021 RAM 5500 Is there any direction we can take on this customer's concern with the parts quote. Also - Are these parts being sold to the IRF at dealer retail price or warranty price? With a quote at $21,000 for parts alone, my initial thought is someone may want to look at this and if there is a concern on this parts quote from the dealer, we should review before the work begins at the IRF. Please advise as the customer is still waiting on a response as he cannot pay $21,000 upfront for parts alone. Thank you so much
11/25/2022	>> MAIL TO CUSTOMER Good morning Devin I have sent another email to the FLEET and RAM?team to see what can be done -? So far, I do not have an answer as to any direction for you. regarding the parts / pricing? The parts are being sold to the independent repair facility - so it doesn't fall under warranty coverage guidelines. that being said, I have also inquired about the pricing and if that is something that can be reviewed. □□□□□□□I have asked that direction be provided before any works begins on the vehicle.

11/29/2022	>> MAIL TO CUSTOMER Good afternoon I have spoken with the Fleet Technical Advisor today and he is researching some options on next steps with the Area Manager and dealerships. I hope to hear some good news soon.
12/01/2022	<<< MAIL FROM CUSTOMER I would like for your supervisor or area manager to reach out to me directly via email not phone. This claim needs to be escalated and expedited immediately. I have been waiting for this repair to be completed since October 7th, 2022 and we have made absolutely no progress. My truck has been sitting, not producing revenue which has caused a major financial crisis and burden for my family. At this point, I feel if this repair isn't expedited and repaired soon, I will have no other options but to seek legal counsel. I understand its hard finding a repair shop to accommodate my truck due to the size, but I have went above and beyond in assisting in finding a repair shop that can handle this repair. I submitted all the estimates to you on 10/20/22 (labor) & 11-15-22 (Chrysler parts) and still no progress has been made. I have received and reviewed My warranty and it clearly states a transmission repair is covered under my warranty. I need a transmission. This was diagnosed by your team at Orlando Dodge. What more do you need? This repair is taking an unusual amount of time that I financially can't afford to continue at this pace. Should I seek legal representation at this point or can your area manager/supervisor email me today with a final solution and a date/time a tow will pick up my truck for transmission repair under my warranty?

12/05/2022	>> MAIL TO CUSTOMER Good afternoon Devin I have been advised to request that you take the vehicle to Napleton's dealership. Also, FLEET RAM team wants to confirm if this vehicle is drivable or if you are going to be towing it to Napleton's. Please advise when you get the chance.
12/05/2022	<< MAIL FROM Thomas Valk SEBC WAM Team: This situation can be resolved quickly. I just got off the phone with Brian Fixed Ops for Napleton and John the service manager at Napelton Clearmont. Napleton Clearmont can look at the vehicle and most likely perform the repairs. As of this time and date, the vehicle has not shown up to Napleton Clearmont. We need to get the vehicle to Napleton Clearmont. The Service Manager and Fixed Ops director will work with me to handle the repair. Brandon, I am assuming you have been in contact with the customer. Is the vehicle driveable or do we need to get it towed? Can you assist in making sure the vehicle gets to Napleton Clearmont? This appears to be a MOPAR Warranty claim, not an MVP issue. As such, Mike Berry or I can work with PTSC is prior approval is necessary as TA's and WAM's can approve repairs for transmissions. Thomas Valk

Stellantis continues to assign my tow to companies that do not have a heavy-duty wrecker that is capable of towing my vehicle. Have you been able to make any progress on a 3rd party shop that can repair my vehicle under warranty? If there is a 3rd party shop nearby, I will pay to tow it there myself. Thank you

Good morning

I have contacted Orlando dealership again and left another voicemail for Ringo.
You will need to work with this dealership to find a suitable repair facility and then see if the dealership's Area Manager can approve a repair.

Ok. So will he approve for the repair to be done at the Peterbilt Truck Center? I am extremely confused. The vehicle has been repaired at several dodge dealerships (Champion Dodge Indiana, SLC Dodge Utah). Orlando Dodge happens to be where I purchased the vehicle. You and Orlando Dodge together are not able to help me find a dealership with a big enough bay or a third party shop that you will approve warranty work for? This seems to be poor customer service for a $60,000 truck I was sold along with a $6,000 extended warranty on top of that. I just want my truck fixed. Orlando Dodge told me to take it to them. I follow their instructions and now I□m being left out to dry.

Nobody has approved anything.
The vehicle needs to be diagnosed before anything gets approved.

You will need to make arrangements with Peterbilt and see if they can accommodate this vehicle.

*** Most likely, they will charge a diagnosis fee, however if there is an indication that this is a warrantable concern, than Orlando Dodge will need to get their Area Manager involved for next steps.

Yes, I towed the vehicle to my home last night after being repeatedly threatened by Orlando Dodge. Orlando Dodge already diagnosed the vehicle. I will try talk to Ringo about where he will approve it to be repaired. You are saying that Mopar doesn□t have a list of approved third-party shops?

They were not sure whether they order the parts on their own or if they
need to get Chrysler parts from you guys somehow. Please advice on how to
proceed. Thank you.

Good afternoon

What did NAPLETON'S CLERMONT advise about accommodating your vehicle?
The Area manager will most likely not give approval to Cox Automotive unless all other avenues have been exhausted.

I just left Napleton Dodge Clermont. They told me the same thing that they
told me over the phone. They do not have a bay big enough to repair my
vehicle. I spoke to Darren Beauchamp. I am cc'ing him to this email if you
would like him to confirm. He suggested that I try the Cummins dealer here
in Orlando. Is that a better option than Cox Automotive? Also, Ringo
informed me that the closest Dodge dealership with a bay big enough to
repair my vehicle is in Birmingham, Alabama. I do not think there is even a
tow service to take it that far, before even considering the cost of tow
would be more than the repair. Every Dodge dealer in Orlando says that
there is no dealership with a bay big enough to repair my vehicle in
Florida. Please advise on what to do next. Thank you.

Good Morning

The Napleton Dodge Clermont dealership. Should be reaching out to their area Manager to get approval for an IRF to perform the work.

Orlando Chrysler dealership is out of the picture at this time.
This is what I advised over the phone.

Wow. Thank you for your continued assistance. Is that normal protocol for a dealership to sell you a truck & extended warranty and then not assist with the repair of the vehicle? I would think they would have some compassion after I spent $1,800 to tow the vehicle there & tow it away after they told me to bring it there & they could fix it. Again, I appreciate your assistance in this matter & hopefully Napleton can help me out.

Yes, I towed the vehicle to my home last night after being repeatedly threatened by Orlando Dodge. Orlando Dodge already diagnosed the vehicle. I will try talk to Ringo about where he will approve it to be repaired. You are saying that Mopar doesn□t have a list of approved third-party shops?

I do not think there is even a tow service to take it that far, before even considering the cost of tow would be more than the repair. Every Dodge dealer in Orlando says that there is no dealership with a bay big enough to repair my vehicle in Florida. Please advise on what to do next. Thank you.

What did NAPLETON'S CLERMONT advise about accommodating your vehicle?
The Area manager will most likely not give approval to Cox Automotive unless all other avenues have been exhausted.

Yes, I towed the vehicle to my home last night after being repeatedly threatened by Orlando Dodge. Orlando Dodge already diagnosed the vehicle. I will try talk to Ringo about where he will approve it to be repaired. You are saying that Mopar doesn□t have a list of approved third-party shops?

The vehicle needs to be diagnosed before anything gets approved.

You will need to make arrangements with Peterbilt and see if they can accommodate this vehicle.

*** Most likely, they will charge a diagnosis fee, however if there is an indication that this is a warrantable concern, than Orlando Dodge will need to get their Area Manager involved for next steps.

Good afternoon

If Orlando and Napelton's dealerships are not able to accommodate this VIN, An Area Manager would need to approve warranty or safety recall repairs to be performed at an IRF or non-bizlink dealership.

The repair facility would work with Napelton's parts department and Parts Manager.
Of course, I would not be able to provide an Area Manager's direct contact information regardless.

Ok. I am trying to gain an understanding of how this works from here. Napleton Dodge is going to provide the shop the parts for free? Or is someone supposed to buy the parts to be reimbursed? I currently have no documentation that I can provide to either party that shows this will be covered & paid for under warranty.

IF diagnosis confirms manufacturer concern - and your have your transmission maintenance records.
You will most likely be charged for diagnosis / teardown -this is customer pay to determine if this is a manufacturer concern

Ok. However, can you provide in writing that I will be fully reimbursed for the repair? My truck hasn□t produced income in over a month. I cannot even afford this repair. However, if this is my only option, I will try to borrow the money from somewhere. Thank you

Ok. I am trying to gain an understanding of how this works from here. Napleton Dodge is going to provide the shop the parts for free? Or is someone supposed to buy the parts to be reimbursed? I currently have no documentation that I can provide to either party that shows this will be covered & paid for under warranty.

I have attached the quote from Napleton for the parts. The total amount due
is $21,464.69. There is NO way that I can afford to purchase these parts
for repair. This is the reason I invested in an extended warranty to avoid
charges like this. Where do we go from here? What are the other options? I
do not understand why I continue to be told that approval will be assessed
after diagnosis. The transmission was already diagnosed at Orlando Dodge. I
will await your response on how to proceed. Thank you

Good afternoon

I have sent an email to the Area Manager and Fleet team to see if they had any direction for you on the part pricing.
you may need to work something out with the dealership and the repair facility.

I will reach out again on this side to see if anyone else has some ideas.

*** PLEASE NOTE *** The RAM FLEET Tech has advised to have you make sure your repair facility documents the repair along with the way with photos in case anything comes up that needs to be reviewed.

Good morning Devin

I have sent another email to the FLEET and RAM team to see what can be done - So far, I do not have an answer as to any direction for you.

regarding the parts / pricing
The parts are being sold to the independent repair facility - so it doesn't fall under warranty coverage guidelines.
that being said, I have also inquired about the pricing and if that is something that can be reviewed.

I have asked that direction be provided before any works begins on the vehicle.

Good afternoon

I have spoken with the Fleet Technical Advisor today and he is researching some options on next steps with the Area Manager and dealerships.

I hope to hear some good news soon.

Has there been any updates on other options besides me coming up with
$30,000 for the repair?

Not since the conversation yesterday, but the Area Manager did advise that there was communication sent regarding this repair needing to be authorized by MVP (Mopar Vehicle Protection) first

I would like for your supervisor or area manager to reach out to me directly via email not phone. This claim needs to be escalated and expedited immediately. I have been waiting for this repair to be completed since October 7th, 2022 and we have made absolutely no progress. My truck has been sitting, not producing revenue which has caused a major financial crisis and burden for my family. At this point, I feel if this repair isn't expedited and repaired soon, I will have no other options but to seek legal counsel. I understand its hard finding a repair shop to accommodate my truck due to the size, but I have went above and beyond in assisting in finding a repair shop that can handle this repair. I submitted all the estimates to you on 10/20/22 (labor) & 11-15-22 (Chrysler parts) and still no progress has been made. I have received and reviewed My warranty and it clearly states a transmission repair is covered under my warranty. I need a transmission. This was diagnosed by your team at Orlando Dodge. What more do you need? This repair is taking an unusual amount of time that I financially can't afford to continue at this pace. Should I seek legal representation at this point or can your area manager/supervisor email me today with a final solution and a date/time a tow will pick up my truck for transmission repair under my warranty?

Good afternoon Devin

I have been advised to request that you take the vehicle to Napleton's dealership.
Also, FLEET RAM team wants to confirm if this vehicle is drivable or if you are going to be towing it to Napleton's.

Please advise when you get the chance.

The vehicle is not drivable & I will need to get it towed there. I am
confused about why they want me to take it to Napleton□s. I have been there
several times & they told me they didn□t have a bay long enough to work on
my vehicle. Please explain what has changed and I will gladly get it towed
there asap. Thank you

I did let them know that, but According the the email that I received, Brian Fixed Ops for Napleton and John the service manager at Napelton Clearmont. Napleton Clearmont can look at the vehicle and most likely perform the repairs.
They state they haven't seen the vehicle yet.

I asked again for some clarification.

I am told that Napelton Clermont has invested in heavy truck mobile lifts that lift at the wheels.
This type of lifting system is used for unusual length vehicles such as this one and buses.

Brian is Fixed Ops for Napleton and John the service manager at Napelton Clearmont.
Contact them to make arrangements as soon as possible.

I did let them know that, but According the the email that I received, Brian Fixed Ops for Napleton and John the service manager at Napelton Clearmont. Napleton Clearmont can look at the vehicle and most likely perform the repairs.
They state they haven't seen the vehicle yet.

I asked again for some clarification.

The vehicle is not drivable & I will need to get it towed there. I am confused about why they want me to take it to Napleton□s. I have been there several times & they told me they didn□t have a bay long enough to work on my vehicle. Please explain what has changed and I will gladly get it towed there asap. Thank you

Good afternoon Devin

I have been advised to request that you take the vehicle to Napleton's dealership.
Also, FLEET RAM team wants to confirm if this vehicle is drivable or if you are going to be towing it to Napleton's.

Please advise when you get the chance.

Yes the vehicle is at their dealership and being worked on. However, they are running into delays with acquiring the new transmission. Are you able to help them expedite the parts faster?

Is there any updates on getting the transmission to the dealership? They
have stated that they still don□t have an ETA. I have unfortunately already
lost my contract with Indiana Transport for hauling RV□s due to the amount
of time the truck has been decommissioned. Please help to expedite delivery
of the transmission as soon as possible. Thank you.

I also received a stop payment notice from the Mopar Vehicle Protection. Do
you know what□s going on with that?

Attached is all of the documents in PDF format. The tow companies never provide an actual invoice. They take a credit card authorization form and simply charge my card after the tow. I never received a repair order from Napleton Dodge in Clermont. I will call them first thing in the morning to have them email it to me and try to get it to you by your deadline you have set. On one of the tow invoices from Stellantis, I no longer have access to that debit card used to pay for the tow. It was a card issued through the RV company that I was subcontracted with. The length of time that my truck was out of service caused me to lose that contract and they have disabled me from seeing transaction history on that card. I have also submitted two truck payments that I need reimbursement for as a result of the length of time that the truck was down. Thank you again for all of your assistance.

Good Morning

The Napleton Dodge Clermont dealership. Should be reaching out to their area Manager to get approval for an IRF to perform the work.

Orlando Chrysler dealership is out of the picture at this time.
This is what I advised over the phone.

Darren, are you Service Manager at Napleton's?

Yes, I towed the vehicle to my home last night after being repeatedly threatened by Orlando Dodge. Orlando Dodge already diagnosed the vehicle. I will try talk to Ringo about where he will approve it to be repaired. You are saying that Mopar doesn□t have a list of approved third-party shops?

Nobody has approved anything.
The vehicle needs to be diagnosed before anything gets approved.

You will need to make arrangements with Peterbilt and see if they can accommodate this vehicle.

*** Most likely, they will charge a diagnosis fee, however if there is an indication that this is a warrantable concern, than Orlando Dodge will need to get their Area Manager involved for next steps.

Good morning Devin

I have contacted Action Wrecker- they have nothing on file for your VIN or name.
Your monthly payment banking is here, but still no actual invoice with the account information.

I called Ace WRECKER (407-855-6631) again and left a voicemail for the accounting department.
The (payment posted) date on the banking statement is OCT 17th

In case they call back, is that the same date at the towing so they can find the invoice?

I was able to speak with Autumn at Ace Wrecker.
She confirmed payment and sent a copy of the invoice to my emails.
I will upload that document to the case ASAP and should be contacting you this week to wrap this up.

Thank you

please review and reply if everything looks correct (amount and any typos in payee / address)
I would like to send this off tonight if possible as the total is higher than normal and will be reviewed by the auditing team for any discrepancies

My total to approve is $5,416.65 (details below)

(3 FULL monthly payments and 2 towing fees)
I am including the tolls and fuel surcharge in the one towing, normally, we only pay the flat fee, however this has been a long and winding road for you.

MONHTLY PAYMENT
3 @ $1203.80 :
TOTAL: $3,611.40

TOWING 1:
SAT OCT 8TH
PAID BY MASTERCARD
TOTAL $1214.50

TOWING 2
TOW $495.00
Fuel Surcharge $74.25
TOLLS** $21.50
TOTAL: $590.75

Good Afternoon Janelle,

I am sending you this email regarding the closure of your Case with Stellantis Case Management. I would like to provide you with my contact information should you have any questions or concerns in the future.

Your Case Number is [redacted]
The Case Management Telephone Number is: 1-844-827-1999
My Direct Extension is: 3020509

Thank you for allowing Stellantis Customer Care the opportunity to address your concern and as stated in our telephone conversation, if your vehicle experiences any further issues and you are able to get it diagnosed certainly give us a call back so we may re-open your case.

We wanted to let you know that we attempt to conduct a satisfaction survey upon the close of a case; therefore, you could potentially receive an email or telephone survey. We□d ask that you take the time to complete the survey so we□ll know how we□re doing and what improvements we can make to enhance the customer experience. Thank you for your time and participation and for being a Stellantis customer.

It has been a pleasure working with you, and I wish you all the best in your future endeavors.

Matthew,
Stellantis Case Management

05/10/2023	****OUTBOUND CUSTOMER CONTACT**** BRIAN-402) 228-6132 Agent called and spoke to customer in regards to vehicle. Customer stated vehicle was brought in to have the recall completed. While vehicle was at the Dealership tech turned to corner to short and dented the ram box. Customer stated that the part for Ram box was on back order but is now repaired. Customer stated that the vehicle is drivable but sometimes it will jerk and if he is at a stop light and he pushes on gas the vehicle sputters and sounds like it is going to stall out. Customer advised he is just waiting on the part, but will reach out to the Dealership and see if they need anything from him.

Hi Lori,

I wanted to provide you with an update. There are 2 separate issues going on with the dealership, so I will try to clarify for you. I thought more was being communicated with you from the dealership. I am an electrical contractor and this RAM truck is a business service vehicle. When it is at the dealership or repair shop, I am unable to continue my normal work schedule. I am a small business owner and do not have other trucks out on the road. When the truck is out of commission, so is my business.

The original issue is what the RAM case number is about. I have been having an ongoing issue with the fuel system since the fuel booster recall was performed in August 2022. I have had the truck at H&H (formerly Baxter) CDJR in Papillion, NE numerous times to try to rectify this issue.

Second issue: In December 2022 while my truck was at the dealership for diagnostic testing, the dealership damaged the truck. I was told they side-swiped a concrete pole while driving it into the bay. Those repairs have been completed as of last Friday. It was in the shop for 2 weeks at an off-site repair shop not associated with the dealership.

During those 2 weeks, I was told the dealership would go perform another diagnostic test on the truck. The dealership knows I am unable to work when the truck is out of commission, so we had worked out a plan that they could perform -- what I was told -- a quick 10 minute test to check for an air leak while the truck was getting repairs. I was hoping the dealership would follow through, knowing their damage is why my truck was out of commission. Unfortunately, that quick diagnostic test was not performed as promised.

After multiple phone calls and a headache today, they have performed this air leak test with no findings of an issue. Due to their diesel tech being gone today, this test was performed by the non-diesel tech. Travis, the service manager at H&H, acted like they wanted to close this case and I would have to open a new one to continue trying to rectify the fuel system issue with this truck. The issue is not fixed and I don□t understand why they would close this case number. This issue arose when the truck was well within the standard warranty. It is now past 36,000 miles and they are pushing to close the case.

H&H has been extremely frustrating to work with. I don□t feel like I□m getting anywhere to fix a problem that was non-existent before RAM□s recall was performed. I would like to get this issue fixed and put in the rearview mirror, but would like it fixed properly before prematurely closing the case.

Please let me know if you have any questions. Thanks!

Hello Shawn:

Thank you for contacting the Case Management Team for Stellantis. I have been assigned as your case manager. Here is some important information that may be helpful:

Case Number: 84861940
Telephone Number: 844-827-2003, ext. 3020402
Work Hours: 9:00am - 5:30pm EST

As per our discussion, you have open recall ZB8-2019 - 2022 D Truck Tailgate Latch Align on your vehicle. You can have this recall done free of charge at the dealership when the transmission arrives. We will reach out to you with regular part updates. We are expecting our next update from the supplier on January 4 so we will contact you on January 5. Please feel free to contact me via e-mail or telephone. Thank you.

Maryann, Case Manager

Hello Shawn,

Hope you had a wonderful week ! I noticed I still haven't received the documents from you. I know you were out of town so I just wanted to send you a reminder. I will check back in a couple of business days however if I don't receive the documents by then I will have to close this case and a new one will be opened once the documents are submitted. Please let me know if you need any help !

Please don't hesitate to make contact if you have any questions or concerns and if email works better for you, you can always respond to this email and I will respond as promptly as possible. Thank you for your patience and co-operation!

Have a great weekend!

Hello Shawn

We received your reply email however the documents were not attached. If you are sending more then one attachment at a time could you try pressing reply and only attaching one document per reply - Occasionally if the files are too big they will not attach to your file

Thank You

Hello Shawn,

So like we talked about if you can try screenshotting the documents on your phone and responding to this email sending all three separately. I am looking into other options as well!

My work hours are: Eastern Standard Time Monday-Friday 10:00-6:30

Please don't hesitate to make contact if you have any questions or concerns and if email works better for you, you can always respond to this email and I will respond as promptly as possible. Thank you for your patience and co-operation!

Best wishes,
Tara

Hello Shawn,

I hope you are doing well. I have reached out to the service manager at the dealership to confirm the amount of time your vehicle was down for repairs. I will let you know as soon as I hear from them. Due to the high cost of the rental there will be an approval process that takes place that we have already begun. I appreciate your patience through this process. I will contact you tomorrow or the next day depending on how quickly the service manager gets back to me.

Please don't hesitate to make contact if you have any questions or concerns and if email works better for you, you can always respond to this email and I will respond as promptly as possible. Thank you for your patience and co-operation!

Good Afternoon

I am sending you this email regarding the closure of your Case with Stellantis Case management. Your check has been issued please allow 7-10 business days for arrival up to 30 days. If after 30 days the check has not arrived, please feel free to give us a call back so we can review.

Thank you for allowing Customer Care the opportunity to address your concern and as stated in our telephone conversation, if your vehicle experiences any further issues and you are able to get it diagnosed certainly give us a call back so we may re-open your case.

Once your case is officially closed you will receive an email survey in regards to your satisfaction with how Ram and myself handled your case. I look forward to your feedback.

Best Wishes

Jena

Good day Levi,

I will follow up with you on Monday, January 9th, to give you time to pick up the vehicle and test it out.

I will check in with you at that time to see how it is, and finalize the case. Please have the amounts of your rentals available if applicable.

Thank you

We did not request reimbursement for repairs to the vehicle. We are aware of the warranty of these repairs because we are eligible for it. We requested the reimbursement for those months that we missed to pay for our loan of the truck which was for six months. The truck has been standing in the dealership for six months for the same issue three times that occurred and we have been waisting money on loan payments.That is the purpose of the reimbursement. The truck broke down because of the transmission three times and the paper work that was sent over was because of the proof to show you that it was in the dealership. That is the purpose of the reimbursement.
Thank you

Good Morning,

My name is Quintin I am following up on behalf of your Case Manager Christina.

I was able to take a look at your email that you sent off 15 hours or so ago and understand that your requesting vehicle payments to be reimbursed. I took a look at all 6 attachments that have been sent in and do not see any documents showing what the monthly payment is. While vehicle payment or reimbursement for vehicle payment are not something covered under the manufacturers warranty inside or out side of warranty I'd still be happy to review any documents sent into us as you vehicle had been down for quite some time. In order for us to review reimbursement we will need a paper showing the total monthly payment from whom ever your vehicle is financed through (ex. Chrysler Capital). in Addition to that we will need a back statement showing the monthly payment costs as well so that we can review them and further discuss what we can do further.

I look forward to hearing from you.

Please don't hesitate to make contact if you have any questions or concerns. Thank you for your patience and cooperation!

All the Best,

Quintin

Good Morning,

My name is Elizabeth I am following up on behalf of your Case Manager Christina.

In order for us to review reimbursement we will need a paper showing the total monthly payment from whom ever your vehicle is financed through (ex. Chrysler Capital). In Addition to that we will need a bank statement showing the monthly payment costs as well so that we can review them and further discuss what we can do further.

I look forward to hearing from you.

Please don't hesitate to make contact if you have any questions or concerns. Thank you for your patience and cooperation!

Sincerely,

Good Morning,

My name is Quintin I am following up on behalf of your Case Manager Christina.

I was able to take a look at your email that you sent off 15 hours or so ago and understand that your requesting vehicle payments to be reimbursed. I took a look at all 6 attachments that have been sent in and do not see any documents showing what the monthly payment is. While vehicle payment or reimbursement for vehicle payment are not something covered under the manufacturers warranty inside or out side of warranty I'd still be happy to review any documents sent into us as you vehicle had been down for quite some time. In order for us to review reimbursement we will need a paper showing the total monthly payment from whom ever your vehicle is financed through (ex. We did not request reimbursement for repairs to the vehicle. We are aware of the warranty of these repairs because we are eligible for it. We requested the reimbursement for those months that we missed to pay for our loan of the truck which was for six months. The truck has been standing in the dealership for six months for the same issue three times that occurred and we have been waisting money on loan payments.That is the purpose of the reimbursement. The truck broke down because of the transmission three times and the paper work that was sent over was because of the proof to show you that it was in the dealership. That is the purpose of the reimbursement.
Thank you

Hello Elizabeth for reaching out regarding the reimbursement. We took out a personal loan and we are paying (879$) monthly. We are currently paying this amount monthly and have been paying even when the truck was at the dealership. I would appreciate if you can help us to figure out how I can get the reimbursement.

Thank you

Hello Nika

In order to lookin in to reimbursement, I still need documentation for the bank you have your loan through showing how much is paid a month for the vehicle. So we need documents from the bank and a bank statement showing the amount was paid for the months the vehicle was down.

The truck has been standing in the dealership for six months for the same issue three times that occurred and we have been waisting money on loan payments.That is the purpose of the reimbursement. The truck broke down

because of the transmission three times and the paper work that was sent over was because of the proof to show you that it was in the dealership. That is the purpose of the reimbursement.

Good Afternoon,

Just am following up regarding the last email that was sent out;

In order to look into reimbursement, I still need documentation for the bank you have your loan through showing how much is paid a month for the vehicle. So we need documents from the bank and a bank statement showing the amount was paid for the months the vehicle was down.

We will need these documents to be sent into us by the end of the week to consider reimbursement as we have given more than 7 days we will be forced to close the case temporarily tomorrow until we received the applicable/needed documents.

Please don't hesitate to make contact if you have any questions or concerns. Thank you for your patience and cooperation!

Hello Elizabeth for reaching out regarding the reimbursement. We took out a personal loan and we are paying (879$) monthly. We are currently paying this amount monthly and have been paying even when the truck was at the dealership. I would appreciate if you can help us to figure out how I can get the reimbursement.
Thank you

I was able to take a look at your email that you sent off 15 hours or so ago and understand that your requesting vehicle payments to be reimbursed. I took a look at all 6 attachments that have been sent in and do not see any documents showing what the monthly payment is. While vehicle payment or reimbursement for vehicle payment are not something covered under the manufacturers warranty inside or out side of warranty I'd still be happy to review any documents sent into us as you vehicle had

been down for quite some time. In order for us to review reimbursement we will need a paper showing the total monthly payment from whom ever your vehicle is financed through (ex. Hello,
Thank you for reaching out. Throughout these six months, the truck was in the dealership for the same reason three times, transmission issue the same issue which was the factory□s fault we had the truck on hold for long time. We have a personal loan which is paid through zelle monthly and we can provide the proof for that. It is not through bank but we can still provide proof that we have been paying this loan for the past six months and still paying.

Thank you

Hello,
Thank you for reaching out. Throughout these six months, the truck was in the dealership for the same reason three times, transmission issue the same issue which was the factory□s fault we had the truck on hold for long time. We have a personal loan which is paid through zelle monthly and we can provide the proof for that. It is not through bank but we can still provide proof that we have been paying this loan for the past six months and still paying.
Thank you

Good Afternoon,

Just am following up regarding the last email that was sent out;

In order to look into reimbursement, I still need documentation for the bank you have your loan through showing how much is paid a month for the vehicle. So we need documents from the bank and a bank statement showing the amount was paid for the months the vehicle was down.

We will need these documents to be sent into us by the end of the week to consider reimbursement as we have given more than 7 days we will be forced to close the case temporarily tomorrow until we received the applicable/needed documents.

Please don't hesitate to make contact if you have any questions or concerns. Thank you for your patience and cooperation!

Hello Elizabeth for reaching out regarding the reimbursement. We took out a personal loan and we are paying (879$) monthly. We are currently paying this amount monthly and have been paying even when the truck was at the dealership. I would appreciate if you can help us to figure out how I can get the reimbursement.
Thank you

Good Afternoon,

My name is Elizabeth I am following up on behalf of your Case Manager Christina.

In order for us to review reimbursement we will need a paper showing the total monthly payment from whom ever your vehicle is financed through (ex. Chrysler Capital). In Addition to that we will need a bank statement showing the monthly payment costs as well so that we can review them and further discuss what we can do further.

I look forward to hearing from you.

Please don't hesitate to make contact if you have any questions or concerns. Thank you for your patience and cooperation!

Good Morning,

My name is Quintin I am following up on behalf of your Case Manager Christina.

I was able to take a look at your email that you sent off 15 hours or so ago and understand that your requesting vehicle payments to be reimbursed. I took a look at all 6 attachments that have been sent in and do not see any documents showing what the monthly payment is. While vehicle payment or reimbursement for vehicle payment are not something covered under the manufacturers warranty inside or out side of warranty I'd still be happy to review any documents sent into us as you vehicle had been down for quite some time. In order for us to review reimbursement we will need a paper showing the total monthly payment from whom ever your vehicle is financed through (ex. Chrysler Capital). in Addition to that we will need a back statement showing the monthly payment costs as well so that we can review them and further discuss what we can do further.

I look forward to hearing from you.

We did not request reimbursement for repairs to the vehicle. We are aware of the warranty of these repairs because we are eligible for it. We requested the reimbursement for those months that we missed to pay for our loan of the truck which was for six months. The truck has been standing in the dealership for six months for the same issue three times that occurred and we have been waisting money on loan payments.That is the purpose of the reimbursement. The truck broke down because of the transmission three times and the paper work that was sent over was because of the proof to show you that it was in the dealership. That is the purpose of the reimbursement.

Throughout these six months, the truck was in the dealership for the same reason three times, transmission issue the same issue which was the factory□s fault we had the truck on hold for long time. We have a personal loan which is paid through zelle monthly and we can provide the proof for that. It is not through bank but we can still provide proof that we have been paying this loan for the past six months and still paying.

We requested the reimbursement for those months that we missed to pay for our loan of the truck which was for six months. The truck has been standing in the dealership for six months for the same issue three times that occurred and we have been waisting money on loan payments.That is the purpose of the reimbursement. The truck broke down because of the transmission three times and the paper work that was sent over was because of the proof to show you that it was in the dealership. That is the purpose of the reimbursement.

I took a look at all 6 attachments that have been sent in and do not see any documents showing what the monthly payment is. While vehicle payment or reimbursement for vehicle payment are not something covered under the manufacturers warranty inside or out side of warranty I'd still be happy to review any documents sent into us as you vehicle had been down for quite some time. In order for us to review reimbursement we will need a paper showing the total monthly payment from whom ever your vehicle is financed through (ex. Chrysler Capital). in Addition to that we will need a back statement showing the monthly payment costs as well so that we can review them and further discuss what we can do further.

Hello,
Thank you for reaching out. Throughout these six months, the truck was in the dealership for the same reason three times, transmission issue the same issue which was the factory□s fault we had the truck on hold for long time. We have a personal loan which is paid through zelle monthly and we can provide the proof for that. It is not through bank but we can still provide proof that we have been paying this loan for the past six months and still paying.

Good Afternoon,

Just am following up regarding the last email that was sent out;

In order to look into reimbursement, I still need documentation for the bank you have your loan through showing how much is paid a month for the vehicle. So we need documents from the bank and a bank statement showing the amount was paid for the months the vehicle was down.

We will need these documents to be sent into us by the end of the week to consider reimbursement as we have given more than 7 days we will be forced to close the case temporarily tomorrow until we received the applicable/needed documents.

Please don't hesitate to make contact if you have any questions or concerns. Thank you for your patience and cooperation!

Hello Elizabeth for reaching out regarding the reimbursement. We took out a personal loan and we are paying (879$) monthly. We are currently paying this amount monthly and have been paying even when the truck was at the dealership. I would appreciate if you can help us to figure out how I can get the reimbursement.
Thank you

Hello,
Thank you for reaching out. Throughout these six months, the truck was in the dealership for the same reason three times, transmission issue the same issue which was the factory□s fault we had the truck on hold for long time. We have a personal loan which is paid through zelle monthly and we can provide the proof for that. It is not through bank but we can still provide proof that we have been paying this loan for the past six months and still paying.

We did not request reimbursement for repairs to the vehicle. We are aware of the warranty of these repairs because we are eligible for it. We requested the reimbursement for those months that we missed to pay for our loan of the truck which was for six months. The truck has been standing in the dealership for six months for the same issue three times that occurred and we have been waisting money on loan payments.That is the purpose of the reimbursement. The truck broke down because of the transmission three times and the paper work that was sent over was because of the proof to show you that it was in the dealership. That is the purpose of the reimbursement.
Thank you

Good Afternoon,

Great news check has been issues for 2 vehicle payments ($1758). You should expect to receive the check in 7-10 business days. However we ask to allow up to 30 days just in case something were to happen in shipping.

Please note that even though your case is closed I am still your support personnel and you can reach out to me in regards to any vehicle concerns.
Thank you for allowing Stellantis Customer Care the opportunity to address your concerns at this time. If your vehicle experiences any further issues and you are able to get it diagnosed certainly give us a call back so we may re-open your case. We wanted to let you know that we attempt to conduct a satisfaction survey upon the close of a case; therefore, you could potentially receive an email or telephone survey. We□d ask that you take the time to complete the survey so we□ll know how we□re doing and what improvements we can make to enhance the customer experience. Thank you for your time and participation and for being a Stellantis customer.

I will be closing your case with Stellantis Case Management at this time.

Please don't hesitate to make contact if you have any questions or concerns. Thank you for your patience and cooperation!

In order to look into reimbursement, I still need documentation for the bank you have your loan through showing how much is paid a month for the vehicle. So we need documents from the bank and a bank statement showing the amount was paid for the months the vehicle was down.

We will need these documents to be sent into us by the end of the week to consider reimbursement as we have given more than 7 days we will be forced to close the case temporarily tomorrow until we received the applicable/needed documents.

I was able to take a look at your email that you sent off 15 hours or so ago and understand that your requesting vehicle payments to be reimbursed. I took a look at all 6 attachments that have been sent in and do not see any documents showing what the monthly payment is. While vehicle payment or reimbursement for vehicle payment are not something covered under the manufacturers warranty inside or out side of warranty I'd still be happy to review any documents sent into us as you vehicle had been down for quite some time. Hello,
Thank you for reaching out. Throughout these six months, the truck was in the dealership for the same reason three times, transmission issue the same issue which was the factory□s fault we had the truck on hold for long time. We have a personal loan which is paid through zelle monthly and we can provide the proof for that. It is not through bank but we can still provide proof that we have been paying this loan for the past six months and still paying.
Thank you

Good Afternoon,

Just am following up regarding the last email that was sent out;

In order to look into reimbursement, I still need documentation for the bank you have your loan through showing how much is paid a month for the vehicle. So we need documents from the bank and a bank statement showing the amount was paid for the months the vehicle was down.

We will need these documents to be sent into us by the end of the week to consider reimbursement as we have given more than 7 days we will be forced to close the case temporarily tomorrow until we received the applicable/needed documents.

Please don't hesitate to make contact if you have any questions or concerns. Thank you for your patience and cooperation!

Hello Elizabeth for reaching out regarding the reimbursement. We took out a personal loan and we are paying (879$) monthly. We are currently paying this amount monthly and have been paying even when the truck was at the dealership. I would appreciate if you can help us to figure out how I can get the reimbursement.

Thank you

I was able to take a look at your email that you sent off 15 hours or so ago and understand that your requesting vehicle payments to be reimbursed. I took a look at all 6 attachments that have been sent in and do not see any documents showing what the monthly payment is. While vehicle payment or reimbursement for vehicle payment are not something covered under the manufacturers warranty inside or out side of warranty I'd still be happy to review any documents sent into us as you vehicle had been down for quite some time. In order for us to review reimbursement we will need a paper showing the total monthly payment from whom ever your vehicle is financed through (ex. We did not request reimbursement for repairs to the vehicle. We are aware of the warranty of these repairs because we are eligible for it. We requested the reimbursement for those months that we missed to pay for our loan of the truck which was for six months. The truck has been standing in the dealership for six months for the same issue three times that occurred and we have been waisting money on loan payments.That is the purpose of the reimbursement. The truck broke down because of the transmission three times and the paper work that was sent over was because of the proof to show you that it was in the dealership. That is the purpose of the reimbursement.
Thank you

I am confused with the payments. Only one month is covered? The vehicle was at the dealership for six months. I think there has been a misunderstanding.

Good Afternoon,

I'd be happy to clarify, We were able to review the documents that have been sent in and based on those documents sent in the monthly payment looks to be $879. We were able to review the days down (The 6 months) as well as other relevant information regarding your Vehicle to determine the max amount of assistance that could be provided in your circumstance.

The warranty Manual goes over your legal rights, what's covered and not covered under the Manufacturers warranty, Reimbursement of vehicle payments being one of the things not covered under the manufacturers warranty (see warranty Manual for further details) . On a case by Case basis we do have the ability to review if providing such assistance would be appropriate and in your situation instead of my only offering 1 single vehicle payment we offered 2 vehicle payments for your vehicle being down for an extended period of time.

We offered this on March 5th we attempted to reach out got your VM then we attempted to email you asking if you would like us to have the 2 vehicle payments ($1758) issued and you advised to send it to the address you provided. So simply got a total of 2 vehicle payments ($1758) have been issued for your Ram and you should expect them in 7-10 business days.

Hopefully that clarity's that for you

Please don't hesitate to make contact if you have any questions or concerns. Thank you for your patience and cooperation!

All the Best,

Quintin

We did not request reimbursement for repairs to the vehicle. We are aware of the warranty of these repairs because we are eligible for it. We requested the reimbursement for those months that we missed to pay for our loan of the truck which was for six months. The truck has been standing in the dealership for six months for the same issue three times that occurred and we have been waisting money on loan payments.That is the purpose of the reimbursement. The truck broke down because of the transmission three times and the paper work that was sent over was because of the proof to show you that it was in the dealership. Good Afternoon,

I'd be happy to clarify, We were able to review the documents that have been sent in and based on those documents sent in the monthly payment looks to be $879. We were able to review the days down (The 6 months) as well as other relevant information regarding your Vehicle to determine the max amount of assistance that could be provided in your circumstance.

The warranty Manual goes over your legal rights, what's covered and not covered under the Manufacturers warranty, Reimbursement of vehicle payments being one of the things not covered under the manufacturers warranty (see warranty Manual for further details) . On a case by Case basis we do have the ability to review if providing such assistance would be appropriate and in your situation instead of my only offering 1 single vehicle payment we offered 2 vehicle payments for your vehicle being down for an extended period of time.

We offered this on March 5th we attempted to reach out got your VM then we attempted to email you asking if you would like us to have the 2 vehicle payments ($1758) issued and you advised to send it to the address you provided. So simply got a total of 2 vehicle payments ($1758) have been issued for your Ram and you should expect them in 7-10 business days.

Hopefully that clarity's that for you

Please don't hesitate to make contact if you have any questions or concerns. Thank you for your patience and cooperation!

What what is the total payment that is being reimbursed? What do you mean by two vehicles? Are you talking about two payments for one vehicle or two vehicles? I don□t exactly know what you□re trying to say regarding that and also when I multiplied 6 by $879, which was paid monthly, it comes out to be ($5274). Can you please clarify on that. Thank you. We requested the reimbursement for those months that we missed to pay for our loan of the truck which was for six months. The truck has been standing in the dealership for six months for the same issue three times that occurred and we have been waisting money on loan payments.That is the purpose of the reimbursement. The truck broke down because of the transmission three times and the paper work that was sent over was because of the proof to show you that it was in the dealership. That is the purpose of the reimbursement.

Good Evening,

No problem, Happy to clarify Simply put a check has been issued $1758. This $1758 is worth 2 vehicle Payments in total 879 + 879 equaling $1758

Hopefully that clarifies things.

Please don't hesitate to make contact if you have any questions or concerns. Thank you for your patience and cooperation!

What what is the total payment that is being reimbursed? What do you mean by two vehicles? Are you talking about two payments for one vehicle or two vehicles? I don□t exactly know what you□re trying to say regarding that and also when I multiplied 6 by $879, which was paid monthly, it comes out to be ($5274). Can you please clarify on that. Thank you. Good Afternoon,

I'd be happy to clarify, We were able to review the documents that have been sent in and based on those documents sent in the monthly payment looks to be $879. We were able to review the days down (The 6 months) as well as other relevant information regarding your Vehicle to determine the max amount of assistance that could be provided in your circumstance.

The warranty Manual goes over your legal rights, what's covered and not covered under the Manufacturers warranty, Reimbursement of vehicle payments being one of the things not covered under the manufacturers warranty (see warranty Manual for further details) . On a case by Case basis we do have the ability to review if providing such assistance would be appropriate and in your situation instead of my only offering 1 single vehicle payment we offered 2 vehicle payments for your vehicle being down for an extended period of time.

We offered this on March 5th we attempted to reach out got your VM then we attempted to email you asking if you would like us to have the 2 vehicle payments ($1758) issued and you advised to send it to the address you provided. So simply got a total of 2 vehicle payments ($1758) have been issued for your Ram and you should expect them in 7-10 business days.

Hopefully that clarity's that for you

Please don't hesitate to make contact if you have any questions or concerns. Thank you for your patience and cooperation!

I am confused with the payments. Only one month is covered? The vehicle was at the dealership for six months. I think there has been a misunderstanding.

Good Afternoon,

Great news check has been issues for 2 vehicle payments ($1758). You should expect to receive the check in 7-10 business days. However we ask to allow up to 30 days just in case something were to happen in shipping.

Please note that even though your case is closed I am still your support personnel and you can reach out to me in regards to any vehicle concerns.
Thank you for allowing Stellantis Customer Care the opportunity to address your concerns at this time. If your vehicle experiences any further issues and you are able to get it diagnosed certainly give us a call back so we may re-open your case. We wanted to let you know that we attempt to conduct a satisfaction survey upon the close of a case; therefore, you could potentially receive an email or telephone survey. We□d ask that you take the time to complete the survey so we□ll know how we□re doing and what improvements we can make to enhance the customer experience. Just am following up regarding the last email that was sent out;

In order to look into reimbursement, I still need documentation for the bank you have your loan through showing how much is paid a month for the vehicle. So we need documents from the bank and a bank statement showing the amount was paid for the months the vehicle was down.

We will need these documents to be sent into us by the end of the week to consider reimbursement as we have given more than 7 days we will be forced to close the case temporarily tomorrow until we received the applicable/needed documents.

Hello Elizabeth for reaching out regarding the reimbursement. We took out a personal loan and we are paying (879$) monthly. We are currently paying this amount monthly and have been paying even when the truck was at the dealership. I would appreciate if you can help us to figure out how I can get the reimbursement.

Good Morning,

My name is Elizabeth I am following up on behalf of your Case Manager Christina.

In order for us to review reimbursement we will need a paper showing the total monthly payment from whom ever your vehicle is financed through (ex. Chrysler Capital). In Addition to that we will need a bank statement showing the monthly payment costs as well so that we can review them and further discuss what we can do further.

I look forward to hearing from you.

Please don't hesitate to make contact if you have any questions or concerns. Thank you for your patience and cooperation!

Sincerely,

Good Morning,

My name is Quintin I am following up on behalf of your Case Manager Christina.

I was able to take a look at your email that you sent off 15 hours or so ago and understand that your requesting vehicle payments to be reimbursed. I took a look at all 6 attachments that have been sent in and do not see any documents showing what the monthly payment is. While vehicle payment or reimbursement for vehicle payment are not something covered under the manufacturers warranty inside or out side of warranty I'd still be happy to review any documents sent into us as you vehicle had been down for quite some time. In order for us to review reimbursement we will need a paper showing the total monthly payment from whom ever your vehicle is financed through (ex. We did not request reimbursement for repairs to the vehicle. We are aware of the warranty of these repairs because we are eligible for it. We requested the reimbursement for those months that we missed to pay for our loan of the truck which was for six months. The truck has been standing in the dealership for six months for the same issue three times that occurred and we have been waisting money on loan payments.That is the purpose of the reimbursement. The truck broke down because of the transmission three times and the paper work that was sent over was because of the proof to show you that it was in the dealership. That is the purpose of the reimbursement.
Thank you

Good Evening,

No problem, Happy to clarify Simply put a check has been issued $1758. This $1758 is worth 2 vehicle Payments in total 879 + 879 equaling $1758

Hopefully that clarifies things.

Please don't hesitate to make contact if you have any questions or concerns. Thank you for your patience and cooperation!

What what is the total payment that is being reimbursed? What do you mean by two vehicles? Are you talking about two payments for one vehicle or two vehicles? I don□t exactly know what you□re trying to say regarding that and also when I multiplied 6 by $879, which was paid monthly, it comes out to be ($5274). Can you please clarify on that. Thank you. Good Afternoon,

I'd be happy to clarify, We were able to review the documents that have been sent in and based on those documents sent in the monthly payment looks to be $879. We were able to review the days down (The 6 months) as well as other relevant information regarding your Vehicle to determine the max amount of assistance that could be provided in your circumstance.

The warranty Manual goes over your legal rights, what's covered and not covered under the Manufacturers warranty, Reimbursement of vehicle payments being one of the things not covered under the manufacturers warranty (see warranty Manual for further details) . On a case by Case basis we do have the ability to review if providing such assistance would be appropriate and in your situation instead of my only offering 1 single vehicle payment we offered 2 vehicle payments for your vehicle being down for an extended period of time.

We offered this on March 5th we attempted to reach out got your VM then we attempted to email you asking if you would like us to have the 2 vehicle payments ($1758) issued and you advised to send it to the address you provided. So simply got a total of 2 vehicle payments ($1758) have been issued for your Ram and you should expect them in 7-10 business days.

Hopefully that clarity's that for you

Please don't hesitate to make contact if you have any questions or concerns. Thank you for your patience and cooperation!

Good Afternoon,

Great news check has been issues for 2 vehicle payments ($1758). You should expect to receive the check in 7-10 business days. However we ask to allow up to 30 days just in case something were to happen in shipping.

Please note that even though your case is closed I am still your support personnel and you can reach out to me in regards to any vehicle concerns.
Thank you for allowing Stellantis Customer Care the opportunity to address your concerns at this time. If your vehicle experiences any further issues and you are able to get it diagnosed certainly give us a call back so we may re-open your case. We wanted to let you know that we attempt to conduct a satisfaction survey upon the close of a case; therefore, you could potentially receive an email or telephone survey. We□d ask that you take the time to complete the survey so we□ll know how we□re doing and what improvements we can make to enhance the customer experience. Thank you for your time and participation and for being a Stellantis customer.

I will be closing your case with Stellantis Case Management at this time.

Thank you for reaching out. Throughout these six months, the truck was in the dealership for the same reason three times, transmission issue the same issue which was the factory□s fault we had the truck on hold for long time. We have a personal loan which is paid through zelle monthly and we can provide the proof for that. It is not through bank but we can still provide proof that we have been paying this loan for the past six months and still paying.

Good Afternoon,

Just am following up regarding the last email that was sent out;

In order to look into reimbursement, I still need documentation for the bank you have your loan through showing how much is paid a month for the vehicle. So we need documents from the bank and a bank statement showing the amount was paid for the months the vehicle was down.

We will need these documents to be sent into us by the end of the week to consider reimbursement as we have given more than 7 days we will be forced to close the case temporarily tomorrow until we received the applicable/needed documents.

Please don't hesitate to make contact if you have any questions or concerns. Thank you for your patience and cooperation!

Hello Elizabeth for reaching out regarding the reimbursement. We took out a personal loan and we are paying (879$) monthly. We are currently paying this amount monthly and have been paying even when the truck was at the dealership. I would appreciate if you can help us to figure out how I can get the reimbursement.

Good Afternoon,

I can fully understand why you would want 6 months of vehicle payment given your situation We did ensure to take into account the fact your vehicle was down for 6 months when presenting the offer. Under some of the worst situations we usually only will offer 1 payment but in your situation it fell above the worst case scenario. Such offers are something not covered in or outside of warranty as far as vehicle payments are concerned and such offered are provided on a case by case basis. We presented the offer of 2 months you accepted the offer and the offer is a firm offer as this would be the highest we could provide. Again We can fully understand why you would want more however again we would be able to offer 2 months. The check has already been issued and you should receive the check in the near future.

We will be temporarily closing your case.

Please note that even though your case is closed I am still your support personnel and you can reach out to me in regards to any vehicle concerns.
Thank you for allowing Stellantis Customer Care the opportunity to address your concerns at this time. If your vehicle experiences any further issues and you are able to get it diagnosed certainly give us a call back so we may re-open your case. We wanted to let you know that we attempt to conduct a satisfaction survey upon the close of a case; therefore, you could potentially receive an email or telephone survey. We□d ask that you take the time to complete the survey so we□ll know how we□re doing and what improvements we can make to enhance the customer experience. Thank you for your time and participation and for being a Stellantis customer.

Please don't hesitate to make contact if you have any questions or concerns. Thank you for your patience and cooperation!

Out of six months that the vehicle was at the dealership because of the transmission which broke three times because of the factory□s fault we only get two months of payment? What happened to the other four months of waiting?

Good Evening,

No problem, Happy to clarify Simply put a check has been issued $1758. This $1758 is worth 2 vehicle Payments in total 879 + 879 equaling $1758

Hopefully that clarifies things.

What what is the total payment that is being reimbursed? What do you mean by two vehicles? Are you talking about two payments for one vehicle or two vehicles? I don□t exactly know what you□re trying to say regarding that and also when I multiplied 6 by $879, which was paid monthly, it comes out to be ($5274). Can you please clarify on that. Thank you. Good Afternoon,

I'd be happy to clarify, We were able to review the documents that have been sent in and based on those documents sent in the monthly payment looks to be $879. We were able to review the days down (The 6 months) as well as other relevant information regarding your Vehicle to determine the max amount of assistance that could be provided in your circumstance.

The warranty Manual goes over your legal rights, what's covered and not covered under the Manufacturers warranty, Reimbursement of vehicle payments being one of the things not covered under the manufacturers warranty (see warranty Manual for further details) . On a case by Case basis we do have the ability to review if providing such assistance would be appropriate and in your situation instead of my only offering 1 single vehicle payment we offered 2 vehicle payments for your vehicle being down for an extended period of time.

We offered this on March 5th we attempted to reach out got your VM then we attempted to email you asking if you would like us to have the 2 vehicle payments ($1758) issued and you advised to send it to the address you provided. So simply got a total of 2 vehicle payments ($1758) have been issued for your Ram and you should expect them in 7-10 business days.

Hopefully that clarity's that for you

Please don't hesitate to make contact if you have any questions or concerns. Thank you for your patience and cooperation!

I am confused with the payments. Only one month is covered? The vehicle was at the dealership for six months. I think there has been a misunderstanding.

Such offers are something not covered in or outside of warranty as far as vehicle payments are concerned and such offered are provided on a case by case basis. We presented the offer of 2 months you accepted the offer and the offer is a firm offer as this would be the highest we could provide. Again We can fully understand why you would want more however again we would be able to offer 2 months. The check has already been issued and you should receive the check in the near future.

We will be temporarily closing your case.

Please note that even though your case is closed I am still your support personnel and you can reach out to me in regards to any vehicle concerns.
Thank you for allowing Stellantis Customer Care the opportunity to address your concerns at this time. If your vehicle experiences any further issues and you are able to get it diagnosed certainly give us a call back so we may re-open your case. We wanted to let you know that we attempt to conduct a satisfaction survey upon the close of a case; therefore, you could potentially receive an email or telephone survey. We□d ask that you take the time to complete the survey so we□ll know how we□re doing and what improvements we can make to enhance the customer experience. Thank you for your time and participation and for being a Stellantis customer.

Please don't hesitate to make contact if you have any questions or concerns. Thank you for your patience and cooperation!

Good Evening,

No problem, Happy to clarify Simply put a check has been issued $1758. This $1758 is worth 2 vehicle Payments in total 879 + 879 equaling $1758

Hopefully that clarifies things.

Please don't hesitate to make contact if you have any questions or concerns. Thank you for your patience and cooperation!

What what is the total payment that is being reimbursed? What do you mean by two vehicles? Are you talking about two payments for one vehicle or two vehicles? I don□t exactly know what you□re trying to say regarding that and also when I multiplied 6 by $879, which was paid monthly, it comes out to be ($5274). Can you please clarify on that. Thank you. Good Afternoon,

I'd be happy to clarify, We were able to review the documents that have been sent in and based on those documents sent in the monthly payment looks to be $879. We were able to review the days down (The 6 months) as well as other relevant information regarding your Vehicle to determine the max amount of assistance that could be provided in your circumstance.

The warranty Manual goes over your legal rights, what's covered and not covered under the Manufacturers warranty, Reimbursement of vehicle payments being one of the things not covered under the manufacturers warranty (see warranty Manual for further details) . On a case by Case basis we do have the ability to review if providing such assistance would be appropriate and in your situation instead of my only offering 1 single vehicle payment we offered 2 vehicle payments for your vehicle being down for an extended period of time.

We offered this on March 5th we attempted to reach out got your VM then we attempted to email you asking if you would like us to have the 2 vehicle payments ($1758) issued and you advised to send it to the address you provided. So simply got a total of 2 vehicle payments ($1758) have been issued for your Ram and you should expect them in 7-10 business days.

Hopefully that clarity's that for you

Please don't hesitate to make contact if you have any questions or concerns. Thank you for your patience and cooperation!

I am confused with the payments. Only one month is covered? The vehicle was at the dealership for six months. I think there has been a misunderstanding.

Hello,
Thank you for reaching out. Throughout these six months, the truck was in the dealership for the same reason three times, transmission issue the same issue which was the factory□s fault we had the truck on hold for long time. We have a personal loan which is paid through zelle monthly and we can provide the proof for that. It is not through bank but we can still provide proof that we have been paying this loan for the past six months and still paying.
Thank you

Good Afternoon,

Just am following up regarding the last email that was sent out;

In order to look into reimbursement, I still need documentation for the bank you have your loan through showing how much is paid a month for the vehicle. So we need documents from the bank and a bank statement showing the amount was paid for the months the vehicle was down.

We will need these documents to be sent into us by the end of the week to consider reimbursement as we have given more than 7 days we will be forced to close the case temporarily tomorrow until we received the applicable/needed documents.

Please don't hesitate to make contact if you have any questions or concerns. Thank you for your patience and cooperation!

Hello Elizabeth for reaching out regarding the reimbursement. We took out a personal loan and we are paying (879$) monthly. We are currently paying this amount monthly and have been paying even when the truck was at the dealership. I would appreciate if you can help us to figure out how I can get the reimbursement.

Thank you

Good Morning,

My name is Quintin I am following up on behalf of your Case Manager Christina.

I was able to take a look at your email that you sent off 15 hours or so ago and understand that your requesting vehicle payments to be reimbursed. I took a look at all 6 attachments that have been sent in and do not see any documents showing what the monthly payment is. While vehicle payment or reimbursement for vehicle payment are not something covered under the manufacturers warranty inside or out side of warranty I'd still be happy to review any documents sent into us as you vehicle had been down for quite some time. In order for us to review reimbursement we will need a paper showing the total monthly payment from whom ever your vehicle is financed through (ex. We did not request reimbursement for repairs to the vehicle. We are aware of the warranty of these repairs because we are eligible for it. We requested the reimbursement for those months that we missed to pay for our loan of the truck which was for six months. The truck has been standing in the dealership for six months for the same issue three times that occurred and we have been waisting money on loan payments.That is the purpose of the reimbursement. The truck broke down because of the transmission three times and the paper work that was sent over was because of the proof to show you that it was in the dealership. That is the purpose of the reimbursement.
Thank you

Yes the vehicle is back in our possession however the TPMS sensors are still going off as well as now the Key FOB does not work. So we will have to be bringing it back. How do we go about compensation for down time what is the procedure ??

The truck was there since Dec 22nd. That is not my problem that they took till Jan 6th to let you know. So what do we do about the fact that we were without a truck for 35 days that truck makes over $2,000 per day. Plus we made a truck payment for a month as well as insurance payment for a month while it sat at a dealership. This is a 21 truck it shouldn□t need a new transmission that□s a Dodge problem not a me problem. So before I have to contact my lawyer and take this to another level. I would inform your supervisor that there will be some sort of compensation. I have already spoken to my lawyer and he is ready. However, I am sure we would all like this to go easier than that. So please let me know where the bills should be sent.

Good morning

I have looked at the documents submitted for a potential monthly payment reimbursement

**** PLEASE NOTE ****
Your monthly statement from the Specialty Vehicle Funding Group does not indicate the VIN as the financing subject. We will need to reference this payment and terms.

I checked the The Bill of Sale, however it does not have anything I can reference to the $1392.00 payment and the final amount does not match the principal on the monthly invoice.

If possible, please submit the original financing agreement outlining the terms of the loan and we can see if this VIN is referenced or any terms / amount I can match up the invoice and Bill of Sale, and we should be good.

As well... Banking statement reflecting the January payment would need to be submitted if the we can match the others.

Thank you for the response

We do not review for lost revenue or wages.

I addressed this with you on the phone on January 10th and advised I would review for potential monthly payment reimbursement
if rental was not feasible or able to be secured.,

RAM reviews for potential monthly payment reimbursement on the VIN for the time down that we were involved in the case, however I have made an exception in this case to offer 1 FULL monthly payment reimbursement of $1,392.00

REPAIR DATES: 12-29, 2022 THRU 01-24, 2023
Case creation was Jan 6th

01/31/2023	***INBOUND/OUTBOUND DEALER EMAIL CHAIN***Hi Adam, adam.haner@helfmanservice.com I did call the customer and I did explain everything to him, he still doesn't believe it and that is his choice. I advised that we will not authorize any of the repairs and the only way to find out if there is anything wrong with the transmission is to first do the transfer case repairs. He really didn't have anything to say after that except going on that he isn't paying and someone is. That is how it was left as I reiterated a few times and went over the information with him that you had sent. I also advised that if any issues from the repairs that were completed came up, they would have presented themself long before 4500 miles were driven. Hi,

Based on our just concluded conversation. You made it clear to me that chrysler or whoever will not authorise the repairs on my vehicle that has been at the dealership for over a month.

My truck was in good working conditions with no issues before chrysler or cummins decided to change the engine and the exhaust system.

I have experienced financial difficulties with my business and have been late on most of my business debts due to this issue.

Just to inform you that i will be filing a legal suit to find legal remedy towards this matter.

I am in so much debt due to this issue as this is the second time the engine of that truck is been changed.

Thank you.

Good Afternoon:

In order for this to be further reviewed I would need to have you send in the following information:

proof of ownership of the vehicle
vehicle registration
and proof of your California address.

At this time no further authorization for rental will be provided until the vehicle has been diagnosed as previously advised.

I have authorized 10 days at $40.00 a day, which will be reimbursed once the vehicle is repaired.

Thanks for reaching out, this has really put me in a bind. Can my case be elevated to a mediator service with Dodge? I have contacted lemon law lawyers and I just don□t like the way they operate. I want to work the financials with Dodge without a lawyer if possible. Please let me know if I have any options through Dodge.

Thanks,

Good Afternoon,

The dealer has informed me that this vehicle has been repaired and is ready to be picked up. That said we will commence case closure however, if you do require anything further, please contact me by 4/17/23 and we can revisit the case.

□Upon case closure, you will receive an email survey regarding my performance. Please feel free to fill out the survey, as we□d appreciate hearing your feedback.□

Best Regards,

Good Afternoon

I just spoke with the dealership and they stated that the vehicle was completed.

At this time we can close the case, if there are no other concerns.
I will give you 2 days to respond. if not we will close the case.

Thank you for allowing Fleet Customer Care the opportunity to address your concern and, if your vehicle experiences any further issues and you are able to get it diagnosed certainly give us a call back so we may re-open your case. We wanted to let you know that we will to conduct a satisfaction survey upon the close of a case; therefore, you could potentially receive an email or telephone survey. We□d ask that you take the time to complete the survey so we□ll know how we□re doing and what improvements we can make to enhance the customer experience. Thank you for your time and participation and for being a Fleet customer.
This directly affects my performance reviews not the dealerships.

Thank you,

Hello,

in order to process a reimbursement I will be required to request that you submit documentation of the repair order, and proof of monthly car payment. You can do this by clicking the reply to this email, the attachment button (it looks like a paperclip), and selecting a clear photo of one document at a time. The other way to receive a reimbursement is to fax the documents to the number 877-768-5076, this requires a cover page to have first, last names, and case number. Once the documents have been received, I will notify you, at that point the processing of the document can take a couple days. If the documents are cut off, modified or edited, you will be asked to resubmit. Once processed, we will see if the amount is correct with you prior to submitting a request for a check.

Thank You
