IMPORTANT SAFETY RECALL 23508

MAY 2023

NHTSA RECALL NO. 23V-171

This notice applies to your vehicle identified on the enclosed card.

Dear INTERNATIONAL® Customer,

This notice is sent to you in accordance with the requirements of the National Traffic and Motor Vehicle Safety Act.

Navistar has decided that a defect which relates to motor vehicle safety exists in certain 2023 HV®, HX®, LoneStar®, LT®, and RH® series trucks built 05/18/2022 thru 08/05/2023 with feature code 04GBN – (Electronic Park Brake) for Tractor or Truck with Trailer Applications.

REASON FOR THIS RECALL

The Intellipark Tractor Park Valve Module (PVM) may intermittently become stuck in the un-parked position and not set the park brake when the park brake switch is pulled on the vehicle dashboard.

RISK TO MOTOR VEHICLE SAFETY

If a driver does detect the Intellipark PVM malfunction indications and does not properly fan down the service brakes, the vehicle may unintentionally move which increases the likelihood of a crash that may result in property damage or personal injury.

DEFECT REMEDY

A remedy and remedy program have not been identified. When the remedy has been developed and parts become available, you will be notified of additional actions you should take.

ACTIONS YOU SHOULD TAKE

To minimize the potential risk of this defect in the interim period, please assume the parking brake does not set when the park brake switch is pulled; turn the ignition to Key OFF position. Repeatedly apply the service brake to evacuate the air supply until low system pressure sets the park brakes.

If you are the lessor of this vehicle, please forward a copy of this notice to the lessee within ten days to comply with federal regulations.

If you do not own this vehicle, please fill out and return mail the enclosed card so that you will not be contacted again about this recall.

IF YOU NEED FURTHER ASSISTANCE

Refer to the Owner Assistance Guide section in your Owner's Manual or call toll free 1-800-448-7825.

Navistar requests your prompt attention and patience regarding the correction of this defect and apologizes for any inconvenience this may cause you.
