Date: July, 2017

TECHNICAL

Subject: **Outer Window Belt Moldings Poor Fit and Retention**

Brand:	Model:	Model Year:		VIN:		Engine:	Transmission:
		from	to	from	to		
Chevrolet	Equinox	2018	2018			All	All
GMC	Terrain	2018	2018			All	All

Involved Region or Country	North America and N.A Export Regions
Condition	4840370 Some customers may comment on poor fit and retention of the outer window belt moldings to the doors.

Copyright 2017 General Motors LLC. All Rights Reserved.

4840369

Note: This condition can occur on any of the four doors and can occur on black or chrome moldings.

Cause	This may be caused by the original molding design not providing the proper fit to the door surface.
Correction	Replace the affected outer window belt moldings with revised moldings.

Modified	

GM bulletins are intended for use by professional technicians, NOT a "do-it-yourselfer". They are written to inform these technicians of conditions that may occur on some vehicles, or to provide information that could assist in the proper service of a vehicle. Properly trained technicians have the equipment, tools, safety instructions, and know-how to do a job properly and safely. If a condition is described, DO NOT assume that the bulletin applies to your vehicle, or that your vehicle will have that condition. See your GM dealer for information on whether your vehicle may benefit from the information.
