Narrative Description of Incident(s), Failure(s), Crash(es), and Injury(ies).

(Darryl's Auto Repair Replaced Line)

Fuel line from gas tank to fuel injector passes over manifold developed a hole, due to expansion and contraction of heat and cold. Caused fuel to squirt on hot manifold, which pushed fumes (carbon monoxide) back into vehicle. Part of fuel line is rubber and part metal. The whole fuel line should be metal to eliminate this problem. Caused me to be deathly ill from the fumes!

Continue on back.

The Privacy Act of 1974 - Public Law 93-579 This information is requested pursuant to 49 U.S.C. Chapter 301. You are under no obligation to respond to this questionnaire. Your response may be used to assist NHTSA in determining whether a manufacturer should take appropriate action to correct a safety defect. If NHTSA proceeds with administrative enforcement or litigation against a manufacturer, your response, or a statistical summary thereof, may be used in support of the agency's action.

Narrative Description of Incident(s), Failure(s), Crash(es), and Injury(ies)

Army Repair Shop - Replaced fuel line.
