The Privacy Act of 1974 (Public Law 93-579) This information is requested pursuant to authority vested in the National Highway Traffic Safety Act and subsequent amendments. You are under no obligation to respond to this questionnaire. Your response may be used to assist the NHTSA in determining whether a Manufacturer should take appropriate action to correct a safety defect. If the NHTSA proceeds with administrative enforcement or litigation against a manufacturer, your response, or a statistical summary thereof, may be used in support of the agency's action.

Narrative Description of Incident(s), Failure(s), Crash(es), and Injury(ies)

While having vehicle serviced, I complained of coolant level had to be added to every 3 to 4 weeks. Mechanic tested and found faulty head gasket allowed coolant to leak into combustion chamber. I was told this is a common problem with this engine even with low mileage and to check if recall was issued.

Dealer I purchased van from had gone out of business. I called another dealer & was told there was no recall available.
