THE BRAKES LOCKED UP, WHICH CAUSED CONSUMER TO PUMP THE BRAKES. *JB

Brakes lock when the weather is damp or the vehicle has not been used for an extended period. If vehicle is in 4 wheel drive, all wheels will lock. I have had the vehicle into the dealer 5 times and asked the Manufacturer about this problem. The manufacturer referred me to the dealer. This only happens at temperatures of 32° and colder.

Include, if available: Police/Fire Department Report, Photos, and Repair Invoice.
