Narrative Description of Incident(s), Crash(es), and Injury(ies).

Please describe (1) events leading up to the failure, (2) failure and its consequences, and (3) what was done to correct the failure; i.e., parts repaired or replaced (and if old part is available).

THE POWER DOORS UNLOCKED BY THEMSELVES. *JB

-At the end of the workday, I went to the parking lot and leaved my car was beeping occasionally (it beeps when remote control for power doors is pushed "lock" twice). When I came closer to the car, I saw that doors were locking and unlocking on their own. The parking's security guard confirmed occasional beeping/locking/unlocking during the day.

-As mentioned problems re-occured later, when car was stopped, but not when driving.

Include, if available: Police/Fire Department Report, Photos, and Repair Invoice.

The Privacy Act of 1974 (Public Law 93-579) This information is requested pursuant to authority vested in the National Highway Traffic Safety Administration and subsequent amendments. You are under no obligation to respond to this questionnaire. Your response may be used to assist the NHTSA in determining whether a Manufacturer should take appropriate action to correct a safety defect. If the NHTSA proceeds with administrative enforcement or litigation against a manufacturer, your response, or a statistical summary thereof, may be used in support of the agency's action.
