Narrative Description of Incident(s), Crash(es), and Injury(ies).

Please describe (1) events leading up to the failure, (2) failure and its consequences, and (3) what was done to correct the failure; i.e., parts repaired or replaced (and if old part is available).

THE VEHICLE VIBRATED WHILE IN IDLE AND DRIVING. THE VIBRATION CAUSED THE DASHBOARD TO CRACK. THE VIBRATION ALSO CAUSED POOR VISIBILITY IN THE MIRRORS. THE PROBLEM WAS UNDETERMINED. *18

Include, if available: Police/Fire Department Report, Photos, and Repair Invoice.

This Privacy Act of 1974 (Public Law 93-579) This information is requested pursuant to authority vested in the National Highway Traffic Safety Act and subsequent amendments. You are under no obligation to respond to this questionnaire. Your response may be used to assist the NHTSA in determining whether a manufacturer should take appropriate action to correct a safety defect. If the NHTSA proceeds with administrative enforcement or litigation against a manufacturer, your response, or a statistical summary thereof, may be used in support of the agency's action.

Narrative Description of Incident(s), Failure(s), Crash(es), and Injury(ies)

Vehicle Vibrates Excessively. I observed cracks in the dashboard which I believe are caused by the excessive vibration of the vehicle. I am concerned about the safety of this vehicle. I am also afraid to drive the car any where except to work + back. I don't think with my car being a 4 cylinder car has anything to do with this problem. I have driven in 4 cylinder car's in the past + never felt vibrating like this.
