The Privacy Act of 1974—Public Law 93-579 This information is requested pursuant to authority vested in the National Highway Traffic Safety Act and subsequent amendments. You are under no obligation to respond to this questionnaire. Your response may be used to assist the NHTSA in determining whether a Manufacturer should take appropriate action to correct a safety defect. If the NHTSA proceeds with administrative enforcement or litigation against a manufacturer, your response, or a statistical summary thereof, may be used in support of the agency's action.

Narrative Description of Incident(s), Failure(s), Crash(es), and Injury(ies)

Chevrolet recalled brake light switch on my 94 Chevy Truck. They said my brake lights may go out without warning. So I took it to Fox Chevrolet in Clinton. I told them I was having no trouble with them. They said they had to change my brake light switch. So I agreed. Later about 6 months people started stopping me and telling me I had no brake lights. I would have them at times then with no warning they would go out. Ever since I had them worked on I've had all kinds of trouble. I've almost had numerous accidents. One was really close. This time makes 3 times I've had it fixed. I've had to pay for 2 of those. Besides all that, I'm afraid to drive it, because I may have them when I leave, and the next minute they're out. I'm always looking in my rearview mirror to see if the car behind me is slowing down, if I've had to slow down, or stop.

I have to drive my truck, that's the only transportation I have. It just scares me to death to have to drive it. I want it fixed, so I'll know I've got brake lights. Not only is it costing me money wise, I'm afraid to haul my family in it. It's going to get someone hurt. Not only is it endangering my family, it's endangering everyone driving. I've done my part by fixing it, and letting you all know. This makes 4 times I've tried to get help, with this same problem. Please help me now, before something happens. Please! Let me know something soon.
