

Narrative description of incident(s), failure(s), crash(es), location(s), and injury(ies). Include additional accidents if applicable.

Starting 11/20/01 I have returned my vehicle over 30 times for numerous faulty items. My engine still slips, jumps, clunks. On 3/19/02 the rear window did not hold & fell on my head. Since 11/20/01 the steering column continuously locked up and I ended up with carpal tunnel. Since the window falling on my head I have experienced retina detachment and extensive balance trouble. I have numerous supporting documentation to support my allegations.

Continue on additional page if necessary.

Describe any additional incidents. (Include date and mileage)
