The Privacy Act of 1974 (Public Law 93-579) This information is requested pursuant to authority vested in the National Highway Traffic Safety Act and subsequent amendments. You are under no obligation to respond to this questionnaire. Your responses may be used to assist the NHTSA in determining whether a manufacturer should take appropriate action to correct a safety defect. If the NHTSA proceeds with administrative enforcement or litigation against a manufacturer, your responses, or a statistical summary thereof, may be used in support of the agency's action.

Narrative Description of Incident(s), Failure(s), Crash(es), and Injury(ies)

Sat May 31 2000

I was in my backyard - 65 Mustang was parked in front yard. Heard a loud boom - discovered the driver's side front tires on 65 Mustang HUB Blown up and blown the driver's side fender out from car. My Son-in-law was with me. My next-door neighbors ran outside - stated "the noise was so loud "we felt it". The tires were bought 6-1-1999. I drive the car very little and the tires only had app 2000 miles on them.
