Narrative Description of Incident(s), Failure(s), Crash(es), and Injury(ies)

I was pulling out of a Driveway when a head a turn. I looked in the Rearview mirror and my spare tire was in the middle of the road. I had a very difficult time getting the tire in the back of my truck. My biggest concern about this was the day before I had been packing my horse trailer with horse for a 2 hr. Highway trip. If this would have happened the day before it would have been a horrible accident to myself and my horse. I would have never guessed this was possible.
