Narrative Description of Incident(s), Failure(s), Crash(es), and Injury(ies)

Sorry I didn't finish this sooner, but I misplaced this.

The front drivers seat randomly falls back ^{ward} 4-1" ~~from~~ which is very distracting while driving. For some reason, ~~the~~ the dealer feels that if the chair ~~is~~ can't be adjusted front and back, it is a safety hazard, but if your seat reclines randomly it is not. I guess I don't get it.
