

Narrative description of incident(s), failure(s), crash(es), location(s), and injury(ies). Include additional accidents if applicable.

I am unaware of crashes but interior light occasionally works & when it does it is sometimes dim; the air conditioning & heat when components off it will blow out, whatever temperature setting it is on through the top vents; the cassette player (original) does not play cassettes; there are leaks from one of the windows; there is rust on the outside driver door (near key entry) & bottom of door; occasionally when putting car in reverse it will grind.

Continue on additional page if necessary.

Describe any additional incidents. (Include date and mileage)
