You are under no obligation to respond to this questionnaire. Your response may be used to assist the NHTSA in determining whether a Manufacturer should take appropriate action to correct a safety defect. If the NHTSA proceeds with administrative enforcement or litigation against a manufacturer, your response, or a statistical summary thereof, may be used in support of the agency's action.

Narrative Description of Incident(s), Failure(s), Crash(es), and Injury(ies)

Dear Sir: My CAR is in the my sisters Name, GLODIA Mcclendon, I have been driving Audi seat 1985, And this is the worsted on I EVER OWN I have had six sets Front AND BACK in A 8+ YEARS OWNERSHIP, I have been having problem with the seat I have own the CAR, they would never check them. All they would is put New ones on the. But ones the warranty Run out they told me, it would cost me \$400.00 And they would have me being my CAR EVER 3 months and they would check the seat. What has happen seat there I have had to put Front BRACKS At 60,000 miles the back was put on but Friends who use to work for Audi they have there own business

Instead of me paying All that money for their services I had them do it. I call Customers services And they said the cannot do anything the way do business. but it Audi Car and they kept giving me the brush off. I heard when I was looking for brake pads that 2001 has 4 different types. that should tell you some thing about there care. I have been own Audis for 16 years and you are suppose to get more wear off back brakes then the front but the backs wear out faster than the front. I brought the car in June and started completing in September of the first year.

Common sense will tell you why
these brakes keep wearing
So here is work order that
has been done on the car
UNTIL the WARRANTY RUNS OUT
AT 4 years 50,000.00 what comes
first so in two years I have
had 5 sets of Brake front and back
It still get soft in the rain or
snow I have problem still stopping
with this car
