The Privacy Act of 1974 - Public Law 93-578 This information is requested pursuant to 49 U.S.C. Chapter 301. You are under no obligation to respond to this questionnaire. Your response may be used to assist NHTSA in determining whether a manufacturer should take appropriate action to correct a safety defect. If NHTSA proceeds with administrative enforcement or litigation against a manufacturer, your response, or a statistical summary thereof, may be used in support of the agency's action.

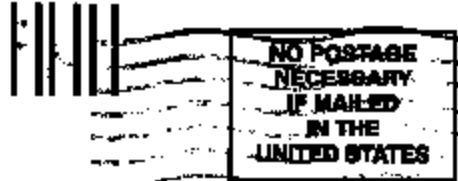

Narrative Description of Incident(s), Failure(s), Crash(es), and Injury(ies)

Toyota overfilled transmission by 1/2 quarts. Should have checked the transmission oil level during oil at 60,000. They said it was O.K. Jim having trouble with the climbing hills. J. Automotive in Joshua Tree Calif. said it was work. This service was done at 1:10 Toyota 78-980 Varner Road. Complained at both Toyota dealers about the transmission, vibration at 50 mph & over constant flats & blue dots.

Bits were warped from purchase had a mechanic check them to tell me why they kept popping when the bushings were good. Plus, have to replace all bolts.
