Narrative Description of Incident(s), Failure(s), Crash(es), and Injury(ies)

I pulled over to edge of road, bike felt like a hot flat tire. It was almost dark out, I left my headlight & taillights on. While checking the rear tire, a car came down the road (straight thru) when car got close, I thought they were going to hit the bike. I believe wearing flippers could have gotten their attention and avoided this NEAR MISS.
