US Dept of Transportation,

It has come to my attention that there has been a recall on the seat belt and the air bag on the new dilazers I have a 97 Blazer. My husband was in a wreck March of 2003 when a lady in an SUV pickup pulled out in front of him he hit her in the side of her car and hit her when he hit the seat belt did not work which the manufacturer had a huge recall on it which was to this day it still doesn't hold and when she tried to tighten it up she churning. The air bag didn't come out either it it was stuck that or the belt not holding which also caused him to hit his belly and chest on the steering wheel. He had a bruise on his chest the hospital kept him over night to check his heart and it had damaged his liver I am in a new car when churning the car (hoping I don't have a

Wreck and it not work for me.
I know a friend of our friend was
killed in a collision on 64
in Huntington. She also had a
blower and she felt her car was
locked the day was killed.
I have always had a pump
and all trip with my family
have had them. I'm always
need of help getting the new
check and fixed (am) I take it to
a dealer for repair. We have gotten
a garage for the wreck cause
nothing was to be paid other than
the spent of my blower and to be
back to me now. I have a much
in the car now I can't get it
but I need a much of a
trouble and inconvenience. I
hopefully our garage and you

Thank You
