Narrative Description of Incident(s), Crash(es), and Injury(ies).
Please describe (1) events leading up to the failure, (2) failure and its consequences, and (3) what was done to correct the failure;
i.e. parts repaired or replaced (and if old part is available).

REAR DRIVER'S SIDE BRAKE LIGHT CONTINUOUSLY WENT OUT. DEALERSHIP MECHANIC DETERMINED WATER SOMEHOW GOT INTO THE WIRES, BUT COULD FIND NO CRACKS IN THE LIGHT COVERS. ALSO, ENGINE OIL AND ENGINE CHECK LIGHTS ILLUMINATED. DEALER MADE SOME REPAIRS, BUT THE LIGHTS CONTINUED TO STAY ON. *AK

Include, if available: Police/Fire Department Report, Photos, and Repair Invoice.

ATTACH ADDITIONAL SHEETS IF NECESSARY.

The Privacy Act of 1974 (Public Law 93-579) This information is requested pursuant to authority vested in the National Highway Traffic Safety Act and subsequent amendments. You are under no obligation to respond to this questionnaire. Your response may be used to assist the NHTSA in determining whether a Manufacturer should take appropriate action to correct a safety defect. If the NHTSA proceeds with administrative enforcement or litigation against a manufacturer, your response, or a statistical summary thereof, may be used in support of the agency's action.

I have taken my car to West Palm Beach Hyundai Dealer sense June of 2003. I took my car there more than one time. I took it before the warranty ran out. The check engine light came on I took my car to them and to find out why. I understand that the light comes on for different reasons but each time they told me that that was the reason.

The oil coagulated in the engine sense I got it and I was told that this happens to all of the cars. It is like a pasty oil.

I took my car to the Dealer and first they told me that the reason the light went out is because water got in the light. I see this is all the models like mine. The check engine light comes on in most of the cars like mine and it stay on. I ask why and they tell me they do not know why.

Thank You
