Narrative Description of Incident(s), Crash(es), and Injury(ies).

Please describe (1) events leading up to the failure, (2) failure and its consequences, and (3) what was done to correct the failure; i.e. parts repaired or replaced (and if old part is available).

EVAPORATION EMISSION CANISTER MALFUNCTIONED. FUEL TANK WAS UNABLE TO FILL UP. *AK

42,000 is when it was noticed. I kept driving it until I took it apart at 55,000. Dumped the dirt out of it. Patched the crack + Laid 8 coats of Reinforced fiberglass over it + put it back on (over)

Include, if available: Police/Fire Department Report, Photos, and Repair Invoice.

ATTACH ADDITIONAL SHEETS IF NECESSARY

The Privacy Act of 1974 (Public Law 93-579) This information is requested pursuant to authority vested in the National Highway Traffic Safety Act and subsequent amendments. You are under no obligation to respond to this questionnaire. Your response may be used to assist the NHTSA in determining whether a manufacturer should take appropriate action to correct a safety defect. If the NHTSA proceeds with administrative enforcement or litigation against a manufacturer, your response, or a statistical summary thereof, may be used in support of the agency's action.

Narrative Description of Incident(s), Failure(s), Crash(es), and Injury(ies)

It seems to work fine now. I still can't believe they put a ~~plastic~~ unprotected plastic container under the frame to be broken by gay rock that slices up & hits it on a gravel road. I also had to build shields to protect the brake lines. Rock broke Rear 4 wheel drive 3/4 ton for use on Hiway only!!! That is not how it was advertised.

They are no better than [redacted] /h
a lie is a lie. False advertizing is a lie
or; does big money buy them privilege to be above
the law?
