Narrative Description of Incident(s), Crash(es), and Injury(ies).

Please describe (1) events leading up to the failure, (2) failure and its consequences, and (3) what was done to correct the failure; i.e., parts repaired or replaced (and if old part is available).

WHEN DEPRESSING ON THE BRAKE PEDAL THE CONSUMER WOULD HEAR A GRINDING NOISE CAUSING THE VEHICLE TO HAVE EXTENDED STOPPING DISTANCE. THE CONSUMER TOOK THE VEHICLE TO THE DEALER TO BE INSPECTED. THE MECHANIC INFORMED THE OWNER THAT THE FRONT ROTORS ARE WEARING. "MR

The above is not what I reported.
There is a bad Shimmy in front end when applying the brakes. There is no grinding noise. Toyota has a TSB out for the factory defect, but won't fix the problem because the truck is out of warranty.

Include, if available: Police/Fire Department Report, Photos, and Repair Invoice.

The Privacy Act of 1974 (Public Law 93-579) This information is requested pursuant to authority vested in the National Highway Traffic Safety Act and subsequent amendments. You are under no obligation to respond to this questionnaire. Your response may be used to assist the NHTSA in determining whether a manufacturer should take appropriate action to correct a safety defect. If the NHTSA proceeds with administrative enforcement or litigation against a manufacturer, your response, or a statistical summary thereof, may be used in support of the agency's action.
