I have submitted complaints concerning a 2003 Buick Century. I have been informed by the State of Mich. - Dept. of Motor Vehicles to re-submit due to TV stations reports that these cars ^{MADE} in Canada were in floods (FLOODS) I had submitted complaints about APRIL, MAY 2004.

Reference # 10068703 - 10071710 Water in ^{Doors} ~~Door~~
Ref. # 10071711 Door Locks Pop open
Ref. # 10071714 Trunk Pops open
Ref. # 10071715 Brakes

Also the outside (OUTSIDE) of the car is terrible, when washed and waxed, it doesn't stay clean, it is sticky dirty.

Radio and clocks pops on and off - quite often it whines when starting, Lights have acted up including bright lights coming on while driving. Gas gauge going from one end to the other
