This is a copy of my title receipt with the VIN number. I had a recall on my Laurus on the cooling fan assembly that I had done and had all the paperwork on file. I called Ford the same day I called you and I cannot find where I filed the papers. I figured with the VIN you could verify that the recall was done by Wynon Ford in Maplewood. Sorry for the brain glitch, but my husband had a stroke a few days before this happened and I have been swimming on overload. Hope this helps.

## Repair Records

This is the last  
service the car received  
before the fire.

I did not have a trans  
leak.
