Complaint Information

Description :

I am a fire captain with the City of Vallejo. My company treated a pet that was crushed between the electric folding 3rd row seat of a 2003 Expedition EB. The child was 4 years old and showed positive signs of suffocation. The seat was checked after pediatric treatment and it would stop folding when we attempted to stop it using our hand to push against its force. The owner of the vehicle (Lowell Sabatage of 176 Coloma W Vallejo California 94589) stated that the seat had been in for repair in past because it would fold up without the switch being pushed. According to others on scene, the seat again folded up without the button being pushed. My concern is that other children are at risk of similar injuries. Lucky a child an adult came out to check on her and found her being crushed seat. Please follow up with this incident. The vehicle VIN # is 1FMPU18L43LA41880. Vallejo Police made a report of the above incident. Their report number is 04-8609.
