Hi I sent you an email yesterday and explained my problem. I also sent an email to Continental Tire claim number 4175007. Today I got a call from them and they said to me that what would they have to do to settle this and offered to pay the deductible on my insurance. The reason I got the call was that they didn't want the tire shipped to you because I asked them to do that. They told me in the letter that I had 30 days and which that time the tire would be destroyed. Then on the phone today they asked me for the other four tires, that they would send me call tags from UPS. Now I am worried how many other people have these tires and are they manufacturing the old tires from 1987 again hoping that they won't be caught. What do you think? [I hope not]

I sent in a claim and the tire company has the tire and they said i hit something that is a LIR I had a witness with me that I didnt and if I did I would have hit it first with my tow veh. Thsi tire was recalld in 1987 and i think they are making it again. They still have the tire and they said they were going to destroy it in 30 days. the claim number at General tire is 4175007 phone # is [REDACTED] Please put a stop to the destruction and request the tire be set to you Thank you [REDACTED]
