N

Narrative Description of Incident(s), Crash(es), and Injury(es).

Please describe (1) events leading up to the failure, (2) failure and its consequences, and (3) what was done to correct the failure; i.e., parts repaired or replaced (and if old part is available).

WHEN THE GAS PEDAL WAS RELEASED, THE ENGINE IDLED HIGH. PLEASE PROVIDE FURTHER DETAILS. *JB

When moving slow or taking off from a stop sign or in crowded traffic when changing gears, and on you let off of gas pedal it wants to stay Idle at the same RPM for awhile before it idles back down. Have Replace Throttle sensor and air sensor motor. A dealer has said it seems like it might be the computer, but won't replace it because they are not sure.

Include, if available: Police/Fire Department Report, Photos, and Repair Invoice.

ATTACH ADDITIONAL SHEETS IF NECESSARY

The Privacy Act of 1974 (Public Law 93-579) This information is requested pursuant to authority vested in the National Highway Traffic Safety Act and subsequent amendments. You are under no obligation to respond to this questionnaire. Your response may be used to assist the NHTSA in determining whether a manufacturer should take appropriate action to correct a safety defect. If the NHTSA proceeds with administrative enforcement or litigation against a manufacturer, your response, or a statistical summary thereof, may be used in support of the agency's action.

OVER

Narrative Description of Incident(s), Failure(s), Crash(es), and Injury(ies)

Frontier Motor in Boonville, Mo. acknowledged there is a problem and the manufacturer wasn't doing anything either because they said they haven't had enough complaints. Even since there is a place in St. Louis, Mo. that has 3 or more of the same problem.
