Narrative Description of Incident(s), Crash(es), and Injury(ies).

Please describe (1) events leading up to the failure, (2) failure and its consequences, and (3) what was done to correct the failure, i.e. parts repaired or replaced (and if old part is available).

ENGINE MANIFOLD DEVELOPED A CRACK. AS A RESULT, VEHICLE PRODUCED AN EXTREME LOUD NOISE. *AK

Manifold replaced for around \$1300.00. O2 sensor now needs replacing. Estimate is \$200-\$300.

Trunk also leaks when raining. The rubber seal around trunk needs replacing. Estimate unknown at this time. I have to make sure. I have nothing of value in trunk because of the leak.

Include, if available, Police/Fire Department Report, Photos, and Repair Invoice.

The Privacy Act of 1974 (Public Law 93-579) This information is requested pursuant to authority vested in the National Highway Traffic Safety Act and subsequent amendments. You are under no obligation to respond to this questionnaire. Your responses may be used to assist the NHTSA in determining whether a manufacturer should take appropriate action to correct a safety defect. If the NHTSA proceeds with administrative enforcement or litigation against a manufacturer, your response, or a statistical summary thereof, may be used in support of the agency's action.
