Model changed
to Silverado
12/2/04

I recently sent in a Vehicle Owner's Questionnaire, reference no. 10095514, and I need to change the model. The form I received listed S10 which I changed to CK15753 (this was on my dealer invoice). This pick-up is a Silverado and most are listed on your web site as such. Please enter Silverado in the model section which should put it in the right category. Also, you might not get many complaints regarding the lights falling as most people are unaware this happens. Everyone I have shown didn't.

Thank you for your help.

Sincerely,

11/12/2004

Jason
