The Privacy Act of 1974-Public Law 93-579 This information is requested pursuant to authority vested in the National Highway Traffic Safety Act and subsequent amendments. You are under no obligation to respond this questionnaire. Your response may be used to assist the NHTSA in determining whether a Manufacturer should take appropriate action to correct a safety defect. If the NHTSA proceeds with administrative enforcement or litigation against a manufacturer, your response, or a statistical summary thereof, may be used in support of the agency's action.

Narrative Description of Incident(s), Failure(s), Crash(es), and Injury(ies)

The oil pan on this vehicle has rusted through and is seeping oil on all sides and bottom of pan. I have a 1995 van with the same motor and there is so rust of oil on that oil pan. I was told that Ford recalled a similar problem concerning their F-150 pickup trucks and am interested to know why the Broncos, which have the same motor and transmission, were not involved in that recall. Thank you.
