Ref. #10097378

Dear [REDACTED]:

Thank you for your correspondence dated September 4, 2004, requesting reimbursement from Hyundai Motor America (Hyundai) for costs you incurred to repair your 1995 Hyundai Accent vehicle prior to receiving notification of a safety recall (Campaign No. 02V-341, summary enclosed). Your correspondence was received on October 18, 2004. Due to limited resources we were not able to respond to you in a more timely manner. We regret any inconvenience our delay may have caused you.

The National Highway Traffic Safety Administration (NHTSA) is the Federal agency responsible for improving safety on our Nation's highways. We are authorized to order manufacturers to recall and repair vehicles or items of motor vehicle equipment when our investigations indicate that they contain serious safety defects in their design, construction, or performance. We also monitor the adequacy of manufacturers' recall campaigns. In order for the agency to initiate an investigation, we look carefully at the body of consumer complaints and other available data to determine whether a defect may exist. We cannot act on isolated problems or resolve disputes between individual owners, dealers, or manufacturers.

We appreciate the report you provided. Reports from motorists are a very important source of information for us. Each report is analyzed and entered into a database to help us determine whether an investigation into a possible safety defect or recall inadequacy is warranted.

The information you provided has been entered into our database and will be reviewed. It will be considered with other reports to identify any inadequacies of the recall campaign that may require our attention.

Federal regulations require a manufacturer conducting a safety recall of motor vehicles or motor vehicle equipment to reimburse owners who have paid to obtain a remedy for the problem within a reasonable time, which in many instances is one year, prior to the manufacturer's

notification. Certain restrictions apply, including the need to submit certain documents to the manufacturer. Owners should follow the instructions in the recall notification letter to file a claim. Owners who feel that their claim was wrongfully denied should pursue the matter with the manufacturer. Owners may also report any dispute to NHTSA by contacting the U.S. Department of Transportation's (DOT) Auto Safety Hotline (Hotline) or by filing a complaint via the agency's Internet Web site. While NHTSA does not have the resources to intervene in individual disputes, it does monitor this data and may address situations where appropriate.

You can contact our toll-free DOT Hotline at 1-888-DASH-2-DOT (1-888-327-4236). One of our representatives may be able to assist you on matters concerning motor vehicle and motor vehicle equipment safety recalls or to report an alleged safety problem. You can also request safety information. If our telephones are busy, or you call during non-working hours, you can leave your name, telephone number, and a brief subject on our recording system. A DOT Hotline representative will return your call.

Additionally, we have an Internet Web site at <http://www.nhtsa.dot.gov> that you may want to visit. An electronic Vehicle Owner's Questionnaire (VOQ) is also available on this Web site at <http://www.nhtsa.dot.gov/ivoq>. This form is for vehicle owners to report safety related problems about their motor vehicles or motor vehicle equipment, e.g., child safety seats, jacks, tires, brake fluid, etc. The reports submitted are transferred to our database and are used to identify safety-related defect trends that require our attention. If you do not have access to the Internet, please use the enclosed VOQ to inform this agency of any future motor vehicle or motor vehicle equipment safety problems you may experience. Also, a summary listing of vehicle owners' complaints, safety recalls, manufacturers' service bulletins, etc., can be obtained at <http://www.nhtsa.dot.gov/cars/problems>.

If further assistance is needed, please contact Mr. Michael J. Jordan, Safety Defects Program Assistant, Correspondence Research Division, Office of Defects Investigation, at (202) 493-0576.

Sincerely,
