I was driving home on the I-290 going east bound in the left lane. I swerved to avoid a dead deer on the road. I lost control of the vehicle and did a 360. I ran into the front driver side quarter panel of a full size pick up truck. My vehicle's front end was destroyed. The insurance company made my vehicle a total loss. Both front air bags did not deploy. A few days later, I called Subaru of America. They said that I would have had to hit a free standing object in order for the airbags to deploy.
