Narrative Description of Incident(s), Crash(es), and Injury(ies):

Please describe (1) events leading up to the failure, (2) failure and its consequences, and (3) what was done to correct the failure:
i.e. parts repaired or replaced (and if old part is available).

THE HEADLIGHT WIRING HARNESS BURNED OUT. CONSUMER WAS DRIVING AND THE HEADLIGHTS BLINKED AND THEN THEY WOULD NOT COME ON. CONSUMER COULD NOT DRIVE AT NIGHT. *AK

This could have cost me a towing job also, if I had been caught on the road somewhere. I kept old bad parts from the dealer. I would like to see a recall for real safety concerns number 1 and a reimbursement of repairs #2

Include, if available: Police/Fire Department Report, Photos, and Repair Invoice.

ATTACH ADDITIONAL SHEETS IF NECESSARY

The Privacy Act of 1974-Public Law 93-579 This information is requested pursuant to authority vested in the National Highway Traffic Safety Act and subsequent amendments. You are under no obligation to respond to this questionnaire. Your response may be used to assist the NHTSA in determining whether a Manufacturer should take appropriate action to correct a safety defect. If the NHTSA proceeds with administrative enforcement or litigation against a manufacturer, your response, or a statistical summary thereof, may be used in support of the agency's action.

Narrative Description of Incident(s), Failure(s), Crash(es), and Injury(ies)

The concern over these headlights going out really bothered me when I thought about traveling at night in the DZARKS on a winding, narrow, mountainous highway with hardly no shoulder to pull over. Which I have made several trips this summer at night and also being stranded who knows where.

The dealer installed a recall kit and said they have gone out with less mileage on vehicles. This is very dangerous. I called manufacturer and no recall done on 1994 model. #13058945 Case.# According to dealer, other models have been recalled.
