Narrative Description of Incident(s), Failure(s), Crash(es), and Injury(ies)

Lucky not! Thank God,

I feel that the satellite antennae wasn't enough for the environment that's so wireless today. Satellite dishes, cell phones, towers (cell). There were no bars between the racks on the roof like the outback and other models. It needed a regular antennae in the front and possibly windows, built in antennae.

Injuries were to my skin getting fried. Went to Dr.

The Privacy Act of 1974 - Public Law 93-579 This information is requested pursuant to 49 U.S.C. Chapter 301. You are under no obligation to respond to this questionnaire. Your response may be used to assist NHTSA in determining whether a manufacturer should take appropriate action to correct a safety defect. If NHTSA proceeds with administration enforcement or litigation against a manufacturer, your response, or a statistical summary thereof, may be used in support of the agency's action.

Narrative Description of Incident(s), Failure(s), Crash(es), and Injury(ies)

*I have an article, were a Subaru Forester 2004
 went through a Target store. In the front door
 out the back. No one was hurt.
 I had vehicle a Decker 3X's. Plus towed it.
 Please let me know how this vehicle makes
 out.
 You made a mistake on my name: not [redacted]
 I wanted something to drive not it driving me.
 I have since lost \$2000. plus, on trade in.
 Have a Toyota RAV 4, as far as good.*

12.14.04

1. Car static on its own
2. goes no more than 15-20 mph, ^{no matter what you do to accelerator} and car or truck coming on at intersection.
3. goes 60 mph accelerator stuck for over 150 feet
4. Lemon!!!
5. jerks when other cars go by with cell phone or lap tops (computers)
6. Car static from other cars.
7. Police Officers radar gun zapped my left arm and went through chest + out right arm. Officer was less than $\frac{1}{2}$ mile down the road when that occurred.
8. knee against left door makes my calf twitch at times
- * 9. car is a danger to me and others on road.
10. went to neighbor and their security ^(Subaru) computer saw my car and latched on to car computer system and I was static all the way home, over 2 miles.
11. When passing cell towers or lg. electric towers I feel slight current on top of head or arms.

12. Some of the (not sure) cable, tele. or des. cables ^{which} also make car static or jerk.
13. Never know when this will happen.
14. Have to have a cell phone in car or else it's worse. What if you forget it!
15. I told salesmen when I bought it that I wanted no extra computers in car. The less the better and if none would be best. Car is over computerized. I want to drive the car, not have the car drive me!!!

When I took the car the 1st time from the dealer it continued to go at a stop until it was $\frac{1}{2}$ " from vehicle in front of me. Since I have a small business, my client was waiting, otherwise I would have returned it right away.

I had 5 Subarus and never a problem like this.

I want to cancel it out. I had 2 other car leases with Subaru before this and never a problem.
