Morgan City, LA [REDACTED]

NVS-216 mec
Ref. No. 10112747

Dear [REDACTED]:

Thank you for your correspondence dated March 9, 2005, concerning a problem you encountered with your 2001 Volkswagen Jetta vehicle. Your correspondence was received by the Office of Defects Investigation (ODI) on March 28, 2005. Due to limited resources we were not able to respond to you in a more timely manner. We regret any inconvenience our delay may have caused you.

The National Highway Traffic Safety Administration (NHTSA) is the Federal agency responsible for improving safety on our Nation's highways. We are authorized to order manufacturers to recall and repair vehicles or items of motor vehicle equipment when our investigations indicate that they contain serious safety defects in their design, construction, or performance. We also monitor the adequacy of manufacturers' recall campaigns. In order for the agency to initiate an investigation, we look carefully at the body of consumer complaints and other available data to determine whether a defect may exist. We cannot act on isolated problems or resolve disputes between individual owners, dealers, or manufacturers.

We appreciate the report you provided; the report you filed with the Department of Transportation's Vehicle Safety Hotline (Hotline) on November 8, 2002; and the report you submitted while visiting NHTSA's Internet Web site on March 8, 2005. Reports from motorists are a very important source of information for us. Each report is analyzed and entered into a database to help us determine whether an investigation into a possible safety defect is warranted.

Information submitted by vehicle owners using Vehicle Owner's Questionnaires (VOQs) is automatically entered into our complaint database, and data is then available to NHTSA's Office of Defects Investigation investigators for review and analysis to determine whether an investigation is warranted. Due to the volume of VOQs received and limited agency resources, NHTSA cannot respond to the submitters of these questionnaires. We apologize for any confusion this may have caused you.

DOT AUTO SAFETY HOTLINE
888-DASH-2-DOT
888-327-4236

On December 16, 2004, NHTSA's ODI opened a safety defect investigation (PE04-081) into reports alleging inadvertent side-airbag deployment in 2001 through 2003 Volkswagen Jetta, Golf and GTI vehicles. On April 1, 2005, ODI closed PE04-081 without the determination that a safety-related defect exists in the subject vehicles. For your information, we have enclosed the opening and closing resumes for PE04-018.

You can contact our toll-free Hotline at 1-888-327-4236. One of our representatives may be able to assist you on matters concerning motor vehicle and motor vehicle equipment safety recalls or to report an alleged safety problem. You can also request safety information. If our telephones are busy, or you call during non-working hours, you can leave your name, telephone number, and a brief subject on our recording system. A Hotline representative will return your call.

Additionally, we have an Internet Web site at <http://www.nhtsa.dot.gov> that you may want to visit. An electronic Vehicle Owner's Questionnaire (VOQ) is also available on this Web site at <http://www.nhtsa.dot.gov/ivoq>. This form is for vehicle owners to report safety related problems about their motor vehicles or motor vehicle equipment, e.g., child safety seats, jacks, tires, brake fluid, etc. The reports submitted are transferred to our database and are used to identify safety-related defect trends that require our attention. If you do not have access to the Internet, please use the enclosed VOQ to inform this agency of any future motor vehicle or motor vehicle equipment safety problems you may experience. Also, a summary listing of vehicle owners' complaints, safety recalls, manufacturers' service bulletins, etc., can be obtained at <http://www.nhtsa.dot.gov/cars/problems>.

If further assistance is needed, please contact Mr. Michael J. Jordan, Safety Defects Program Assistant, Correspondence Research Division, Office of Defects Investigation, at (202) 493-0576.

Sincerely,

Alberto A. Jimenez, Chief
Correspondence Research Division
