I'm asking you to expand the recall of of the Dodge Dakota to include the model year of 1999. I have a 1999 Dakota that was in the shop in September of this year. The dealership informed me that my ball joints were "shot" and needed repair/replacement. I was unable to make the repairs due to the cost. I plan on keeping the truck for another two years. I would appreciate it if you would consider my request. Please forward this request to the department handling the Dakota recall. Thanks for your time. [REDACTED]
