

10114894

DEAR SIR.

2005 MAR - 2 AM 12:11

I have a 2000 Dodge Diesel
1-TON - 4X4 - This TRUCK has went
THRU a Set of FRONT - TIRES EVER
15,000 MILES - The Dodge Dealers
have BEEN TOLD TO TELL THE CUSTOMERS
TO ROTATE THE TIRES EVER 6,000 MILES
These are not NORMAL - SAFETY
Practise and many of these TRUCKS
Like mine have Never Drive
Like they are SUPPOSE TO.
WANTING FROM Side to Side
at all times These TRUCK are
not Safe and Dodge SHOULD
make changes to hold them on
the ROAD with out eating up the
FRONT TIRES - Dodge Should Be held
Responsible to Build a Safe Driving TRUCK.

Thank You For
Your Time
