25 February 2005

To Whom It May Concern:

I am writing this letter to report what I concern a safety factor. On the night of February 17, 2005 I had an accident with my 2003 Saturn Ion 3.

The passenger or drivers air bag did not inflate!
This is a serious safety factor as far as I am concerned.

Enclosed are pictures of said vehicle. I hope this situation will be handled as soon as possible to prevent anyone getting a serious injury if involved in an accident.

Sincerely,

[REDACTED]
