The Privacy Act of 1974 (Public Law 93-579) This information is requested pursuant to authority vested in the National Highway Traffic Safety Act and subsequent amendments. You are under no obligation to respond to this questionnaire. Your response may be used to assist the NHTSA in determining whether a Manufacturer should take appropriate action to correct a safety defect. If the NHTSA proceeds with administrative enforcement or litigation against a manufacturer, your response, or a statistical summary thereof, may be used in support of the agency's action.

Narrative Description of Incident(s), Failure(s), Crash(es), and Injury(ies)

Vehicle Stalls at any Speed. Truck loses all power functions. It has to be completely stopped, put in park then restarted. Was informed by dealer through the Service Director that it may be six to eight weeks for a fix. The explanation I was given for the fix was ~~Chrysler~~ Chrysler was reengineering the PCM. The first date I was notified of this problem ~~was~~ and fix was the day I took it in on March 11, 2005. I have talked to the dealer ~~once~~ since then on March 28, 2005 and was told the same thing, Chrysler has a possible fix and would be a few more weeks before the dealer would have it or would be notified of the fix.
