Narrative Description of Incident(s), Failure(s), Crash(es), and Injury(ies).

It is a 5th wheel trailer that attaches to a tow vehicle. The hitching components are not rated to hold the vehicle weight. Trailer brakes wires are not secure and the wires rub against the tires. Vehicle jumps off or falls off front jacks. A door does not stay closed when in motion. I have a broken piece of wire that fell off from the trailer brakes. (Fleetwood just started making this vehicle.)
