[REDACTED]
Charleston, WV [REDACTED]

Dear [REDACTED]

Thank you for your correspondence dated March 14, 2005, on behalf of your clients, [REDACTED] wrote concerning problems they encountered with their 2002 Oldsmobile Alero vehicle. Your correspondence was received by the Office of Defects Investigation on April 4, 2005. Due to limited resources we were not able to respond to you in a more timely manner. We regret any inconvenience our delay may have caused you.

The National Highway Traffic Safety Administration (NHTSA) is the Federal agency responsible for improving safety on our Nation's highways. We are authorized to order manufacturers to recall and repair vehicles or items of motor vehicle equipment when our investigations indicate that they contain serious safety defects in their design, construction, or performance. We also monitor the adequacy of manufacturers' recall campaigns. In order for the agency to initiate an investigation, we look carefully at the body of consumer complaints and other available data to determine whether a defect may exist. We cannot act on isolated problems or resolve disputes between individual owners, dealers, or manufacturers.

We appreciate the report you provided on behalf of Mr. and Mrs. Whittington. Reports from motorists are a very important source of information for us. Each report is analyzed and entered into a database to help us determine whether an investigation into a possible safety defect is warranted.

A review of our database relative to problems associated with the steering system and hub assembly in 2002 Oldsmobile Alero vehicles revealed insufficient evidence to warrant opening a safety defect investigation at this time. The information you provided has been entered into our database. It will be considered with other reports to identify any safety defect trends that may require our attention.

Furthermore, a list of consumer complaints, investigations, service bulletins, and/or detailed information of investigations and safety recalls concerning vehicle safety problems can be obtained from NHTSA Internet Web site at <http://www.nhtsa.dot.gov/cars/problems> or

DOT AUTO SAFETY HOTLINE
888-DASH-2-DOT
888-327-4236

requesting the information from NHTSA's Technical Information Services (TIS). Please contact:

National Highway Traffic Safety Administration
(Technical Information Services NPO-405)
400 Seventh Street, SW - Room 2336
Washington, DC 20590
FAX: (202) 493-2833
E-MAIL: tis@nhtsa.dot.gov <<mailto:tis@nhtsa.dot.gov>>

Mr. and Mrs. Whittington will need to specify the make, model, model year, and type of problem for which they are requesting information. There is a nominal charge for providing the listings and detailed information; therefore, they may consider contacting TIS for price information before ordering.

You can contact our toll-free Vehicle Safety Hotline (Hotline) at 1-888-327-4236. One of our representatives may be able to assist you on matters concerning motor vehicle and motor vehicle equipment safety recalls or to report an alleged safety problem. You can also request safety information. If our telephones are busy, or you call during non-working hours, you can leave your name, telephone number, and a brief subject on our recording system. A Hotline representative will return your call.

Additionally, we have an Internet Web site at <http://www.nhtsa.dot.gov> that you may want to visit. An electronic Vehicle Owner's Questionnaire (VOQ) is also available on this Web site at <http://www.nhtsa.dot.gov/ivoq>. This form is for vehicle owners to report safety related problems about their motor vehicles or motor vehicle equipment, e.g., child safety seats, jacks, tires, brake fluid, etc. The reports submitted are transferred to our database and are used to identify safety-related defect trends that require our attention. If you do not have access to the Internet, please use the enclosed VOQ to inform this agency of any future motor vehicle or motor vehicle equipment safety problems you may experience. Also, a summary listing of vehicle owners' complaints, safety recalls, manufacturers' service bulletins, etc., can be obtained at <http://www.nhtsa.dot.gov/cars/problems>.

If further assistance is needed, please contact Mr. Michael J. Jordan, Safety Defects Program Assistant, Correspondence Research Division, Office of Defects Investigation, at (202) 493-0576.

Sincerely,

Alberto A. Jimenez, Chief
Correspondence Research Division
