Narrative Description of Incident(s), Failure(s), Crash(es), and Injury(ies).

Several times (I would guess at least 12 times in the last 3 years), the car accelerates on its own. This happens particularly if I have just started it up and am leaving an underground parking - or have parked at an above-ground parking and am then driving away. Or sometimes, it just happens on regular level driving. Then I put my foot on the brake and slow it down - but it doesn't slow it (the idle being accelerated) for a while.

Continue on back.

The Privacy Act of 1974 - Public Law 93-579 This information is requested pursuant to a 49 U.S.C. Chapter 301. You are under no obligation to respond to this questionnaire. Your response may be used to assist NHTSA in determining whether a manufacturer should take appropriate action to correct a safety defect. If NHTSA proceeds with administration enforcement or litigation against a manufacturer, your response, or a statistical summary thereof, may be used in support of the agency's action.
