

Dear Sir or Madam

10119182

On JAN 7th of 2004. I purchased a 2001 Dodge Intrepid from Graham's Auto Mall 1575 West Fourth Street Mansfield, Ohio in good faith that this car was good and reliable and would be very dependable and I would be driving it for some time, but this didn't happen for me. I have paid out money, when I drove it this last time the motor was knocking. Talked to the car dealers, they more or less told me this was my problem. The car been sitting idle for several months with only having 58,000 Miles and me only having it for a year. In my mind I feel have naturally screwed by the car dealer that sold it to me. And I am turning to you people to see if you could possibly help for as fixing this car. I still have a loan on it, its a damn shame, so please can you do something for as helping me with this predicament. I am in for as this car. So please contact me as soon as possible.

Thank You
