Narrative Description of Incident(s), Failure(s), Crash(es), and Injury(ies).

The front brake rotors corroded and flaked creating a hazardous condition. The dealer was aware of this prior to the end of the warranty period but did not correct this defect. This vehicle has had a large number of defects including standing water in the foot wells, the failure, fan failure, doors not aligned. Brakes on other Jeeps were part of a recall per my mechanic.

The Privacy Act of 1974 - Public Law 93-579 This information is requested pursuant to 49 U.S.C. Chapter 301. You are under no obligation to respond to this questionnaire. Your response may be used to assist NHTSA in determining whether a manufacturer should take appropriate action to correct a safety defect. If NHTSA proceeds with administration enforcement or litigation against a manufacturer, your response, or a statistical summary thereof, may be used in support of the agency's action.
