THE CONSUMER STATED THAT SHE OWNS A 2001 CHEVY SILVERADO AND THE ABS WAS NOT WORKING. *JB

The truck would not stop, I was traveling about 15mph-20mph
I almost crashed into someone in front of me. The truck
gave no warning this was about to happen. I was terrified.

Include, if available: Police/Fire Department Report, Photos, and Repair Invoice.

Finally I put the truck into low gear and she was able to stop. I can't understand why there hasn't been a recall from Gmc. When the truck was serviced, the repair man could not believe the truck actually did that, he said he never had seen anything like it. I have the original parts that were taken off the truck in case Gmc needs to make their own diagnosis of the situation. I did go on your website www.NHTSA and was horrified to see all the complaints made on the Abs braking system. Something needs to be done before someone gets killed!

(Please see attached bill for repair service)
