Narrative Description of Incident(s), Failure(s), Crash(es), and Injury(ies).

I bought this car in September 2001 in Paramus, NY. I moved to PA. In August 2004 I needed my motor replaced, because my temperature gauge never registered that my engine was running hot. My engine was destroyed, ever since this incident I have been back to the dealer & other mechanics shops. Right now my coolant sensor is malfunctioning. Please help me.

Your response may be used to assist NHTSA in determining whether a manufacturer should take appropriate action to correct a safety defect.
