Ref. No. 10126310

Dear [REDACTED]

Thank you for your correspondence dated July 12, 2005, concerning your 1996 and 1998 Land Rover Range Rover vehicles. Your correspondence was received on July 26, 2005. Due to limited resources we were not able to respond to you in a more timely manner. We regret any inconvenience our delay may have caused you.

The National Highway Traffic Safety Administration (NHTSA) is the Federal agency responsible for improving safety on our Nation's highways. We are authorized to order manufacturers to recall and repair vehicles or items of motor vehicle equipment when our investigations indicate that they contain serious safety defects in their design, construction, or performance. We also monitor the adequacy of manufacturers' recall campaigns. In order for the agency to initiate an investigation, we look carefully at the body of consumer complaints and other available data to determine whether a defect may exist. We cannot act on isolated problems or resolve disputes between individual owners, dealers, or manufacturers.

We appreciate this report and the previous report you provided via NHTSA's web site on June 25, 2005. Reports from motorists are a very important source of information for us. Each report is analyzed and entered into a database to help us determine whether an investigation into a possible safety defect is warranted.

Information submitted by vehicle owners using Vehicle Owner's Questionnaires (VOQs) is automatically entered into our complaint database, and data is then available to NHTSA's Office of Defects Investigation investigators for review and analysis to determine whether an investigation is warranted. Due to the volume of VOQs received and limited agency resources, NHTSA cannot respond to the submitters of these questionnaires. We apologize for any confusion this may have caused you.

A review of our database relative to problems associated with the air suspension system in 1996 and 1998 Land Rover Range Rover vehicles revealed insufficient evidence to warrant opening a safety defect investigation at this time. The information you provided has been entered into our database. It will be considered with other reports to identify any safety defect trends that may require our attention. However, we would like to details of the failure. Please

DOT AUTO SAFETY HOTLINE
888-DASH-2-DOT
888-327-4236

use the enclosed vehicle owners questionnaire and also provide copies of the invoices regarding the repair of the vehicle.

You can contact our toll-free Vehicle Safety Hotline (Hotline) at 1-888-327-4236. One of our representatives may be able to assist you on matters concerning motor vehicle and motor vehicle equipment safety recalls or to report an alleged safety problem. You can also request safety information. If our telephones are busy, or you call during non-working hours, you can leave your name, telephone number, and a brief subject on our recording system. A Hotline representative will return your call.

Additionally, we have an Internet Web site at <http://www.nhtsa.dot.gov> that you may want to visit. An electronic Vehicle Owner's Questionnaire (VOQ) is also available on this Web site at <http://www.nhtsa.dot.gov/ivoq>. This form is for vehicle owners to report safety related problems about their motor vehicles or motor vehicle equipment, e.g., child safety seats, jacks, tires, brake fluid, etc. The reports submitted are transferred to our database and are used to identify safety-related defect trends that require our attention. If you do not have access to the Internet, please use the enclosed VOQ to inform this agency of any future motor vehicle or motor vehicle equipment safety problems you may experience. Also, a summary listing of vehicle owners' complaints, safety recalls, manufacturers' service bulletins, etc., can be obtained at <http://www.nhtsa.dot.gov/cars/problems>.

If further assistance is needed, please contact Mr. Michael J. Jordan, Safety Defects Program Assistant, Correspondence Research Division, Office of Defects Investigation, at (202) 493-0576.

Sincerely,

A handwritten signature in black ink, appearing to read "Alberto A. Jimenez". The signature is fluid and cursive, with the first name "Alberto" and last name "Jimenez" clearly distinguishable.

Alberto A. Jimenez, Chief
